The Society of the
New York Hospital

One Hundred and Twenty-seventh
Annual Report,
FOR THE YEAR 1897

Press of L. H. Biglow & Company,
62 Broad St., New York.

GOVERNORS.

SHEPPARD GANDY, . . . *President.*
THEODORUS B. WOOLSEY, . . . *Vice-President.*
J. EDWARD SIMMONS, . . . *Treasurer.*

JOSEPH H. CHOATE,	WILLIAM ALEXANDER DUER,
WILLIAM WARNER HOPPIN,	HENRY W. DE FOREST,
ELBRIDGE T. GERRY,	EDMUND D. RANDOLPH,
PHILIP SCHUYLER,	FORDHAM MORRIS,
JAMES O. SHELDON,	GEORGE G. HAVEN,
HERMANN H. CAMMANN,	FREDERICK D. TAPPEN,
JAMES WILLIAM BEEKMAN,	GEORGE G. DEWITT,
CORNELIUS N. BLISS,	AUGUSTUS D. JULLIARD.
GEORGE S. BOWDOIN,	FRANCIS LYNDE STETSON.
WALDRON POST BROWN,	THOMAS H. BARBER.
EDWARD KING,	RICHARD TRIMBLE.

DAVID H. KING, JR.

HENRY W. CRANE, *Secretary.*

Standing Committees of the Board of Governors.

EXECUTIVE.

JOSEPH H. CHOATE,	HENRY W. DE FOREST,
ELBRIDGE T. GERRY,	EDMUND D. RANDOLPH,
PHILIP SCHUYLER,	GEORGE G. HAVEN,
HERMANN H. CAMMANN,	GEORGE G. DE WITT,
EDWARD KING,	AUGUSTUS D. JUILLIARD,
WILLIAM ALEXANDER DUER,	FRANCIS LYNDE STETSON.

BLOOMINGDALE.

FREDERICK D. TAPPEN, <i>Chairman</i> ,	WILLIAM WARNER HOPPIN,
WALDRON POST BROWN, <i>Sec'y</i> ,	PHILIP SCHUYLER,
FORDHAM MORRIS,	JAMES O. SHELDON.

ON LAW.

ELBRIDGE T. GERRY,	JOSEPH H. CHOATE.
HENRY W. DE FOREST.	

REAL ESTATE.

HERMANN H. CAMMANN, <i>Chairman</i> .	
JAMES O. SHELDON,	WALDRON POST BROWN,
GEORGE S. BOWDOIN,	EDWARD KING.

ON NOMINATIONS.

ELBRIDGE T. GERRY, <i>Chairman</i> .	
PHILIP SCHUYLER.	EDMUND D. RANDOLPH.

The President, Vice-President and Treasurer are *ex-officio* members of all Committees.

MEDICAL BOARD.

THOMAS M. MARKOE, M. D., *President.*

FRANCIS W. MURRAY, M. D., *Secretary.*

Consulting Physicians.

GOUVERNEUR M. SMITH, M. D. EDWARD L. PARTRIDGE, M. D.

JAMES W. McLANE, M.D. L. DUNCAN BULKLEY, M. D.

CHARLES E. HACKLEY, M. D. WILLIAM H. DRAPER, M. D.

Consulting Surgeon.

THOMAS M. MARKOE, M. D.

Attending Physicians.

GEORGE L. PEABODY, M. D. HENRY P. LOOMIS, M. D.

A. BRAYTON BALL, M. D. SAMUEL W. LAMBERT, M. D.

Attending Surgeons.

ROBERT F. WEIR, M. D. LEWIS A. STIMSON, M. D.

WILLIAM T. BULL, M. D. FRANK HARTLEY, M. D.

FRANCIS W. MURRAY, M. D.

Attending Surgeon to the House of Relief.

LEWIS A. STIMSON, M. D.

Pathologist.

GEORGE P. BIGGS, M. D.

Ass't Pathologist.

LEWIS A. CONNER, M. D.

Assistant Librarian.

JOSEPH H. VANDERVOORT.

Physician to the Training School for Nurses.

GEORGE H. COBB, M. D.

Attending Physician for Contagious Diseases.

VANDERPOEL ADRIANCE, M. D.

OUT-PATIENT STAFF.

Surgery.

BENJAMIN TILTON, M. D., *Principal.* ARTHUR L. FISK, M. D., *Principal.*
C. R. L. PUTNAM, M. D., *Assistant.* HENRY H. FORBES, M. D., *Assistant.*

General Medicine.

VANDERPOEL ADRIANCE, M. D., *Prin.* CHAS. E. NAMMACK, M. D., *Principal*
FRANK MEARA, M. D., *Assistant.* JOHN ALDRICH, M. D., *Assistant.*

Skin and Venereal Diseases.

PRINCE A. MORROW, M. D., *Principal.* JAMES C. JOHNSTON, M. D., *Assistant.*

Diseases of Women.

NELSON H. HENRY, M. D., *Principal.* J. H. EMERSON, M. D., *Principal.*
J. MILTON MABBOTT, M. D., *Assistant.* GEORGE V. FOSTER, M. D., *Assistant.*

Orthopaedic Surgery.

A. B. JUDSON, M. D., *Principal.*

EVENING CLASS.

General Medicine.

CYRUS J. STRONG, M. D., *Principal.*
FRANCIS W. DAVIS, M. D., *Assistant.*

Surgery.

CHARLES F. ADAMS, M. D., *Principal.*
ROBERT F. BRODNAX, M. D., *Assistant.*

HOUSE OFFICERS.

Superintendent.

GEORGE P. LUDLAM.

House Staff.

ADRIAN V. S. LAMBERT, M. D. *House Physician.*
FRANCIS EPPES SHINE, M. D. *Senior Assistant.*
THEODORE B. BARRINGER, M. D. *Junior Assistant.*
JOSEPH ROBY, M. D. } *House Surgeons.*
ROBERT McEWEN SCHAUFFLER, M. D. }
ROBERT S. TRACY, M. D. } *Senior Assistants.*
JAMES R. WHITING, JR., M. D. }
SIDNEY L. LASELL, M. D. } *Junior Assistants.*
WILLIAM A. DOWNES, M. D. }

Served as House Physician during 1897.

WILLIAM R. WILLIAMS, M. D.

Served as House Surgeons during 1897.

WILLIAM N. HARRISON, M. D. ALFRED S. TAYLOR, M. D.

Apothecary.

SIDNEY RAUSCHENBERG, PH. G.

Apothecary's Assistant.

ARCHIBALD F. WEYMER, PH. G.

Directress of Nurses.

IRENE H. SUTLIFFE.

Housekeeper.

FRANK M. SUTLIFFE

Clerk.

THOMAS K. ROBERTSON.

HOUSE OF RELIEF,
67 AND 69 HUDSON STREET.

Attending Surgeon.

LEWIS A. STIMSON, M. D.

Attending Physician.

LEWIS A. CONNER, M. D.

Out-Patient Staff.

BENJAMIN TILTON, M. D.	CHARLES CURTIS PAGE, M. D.
FIELDING L. TAYLOR, M. D.	JOHN S. RICHARDSON, M. D.
WILLIAM G. LYLE, M. D.	WILLIAM R. WILLIAMS, M. D.

House Staff.

EDMUND J. LABBE, M. D.	<i>House Surgeon.</i>		
EDWIN HOLMES, M. D.	<i>First Assistant Surgeon.</i>		
CLINTON CATHERWOOD, M. D.	<i>Second</i>	"	"
HARRY H. RODMAN, M. D.	<i>Third</i>	"	"
JOSEPH C. ROPER, M. D.	<i>Fourth</i>	"	"

Served as House Surgeons during 1897.

REV. FREDERICK VAN KLEECK.....	<i>Chaplain (non-resident).</i>

TO THE LEGISLATURE
OF THE
STATE OF NEW YORK.

The Governors of the Society of the New York
Hospital respectfully present their Annual
Report of the state of the Institutions under
their charge for the year 1897, as required by law.

The Society of the New York Hospital

One Hundred and Twenty-seventh Annual Report.

The Board of Governors of the Society of the New York Hospital in conformity with the provisions of its Charter, granted by George Third of England, June 13th, 1771, present herewith the One hundred and twenty-seventh report of the several Institutions under their control and management, located as follows :

The Hospital at Fifteenth and Sixteenth Streets, between Fifth and Sixth Avenues; the House of Relief at 67 and 69 Hudson Street, for the treatment of emergency cases; and the Department for the treatment of mental diseases, known as Bloomingdale, located at White Plains, Westchester County.

All these Institutions have maintained and treated during the past year the large aggregate of 49,193 patients, an increase of 3,866 patients over 1896. The grand total treated since the commencement of Hospital work, January 3rd, 1791, is 789,755.

The financial condition of this Corporation on the 31st of December, 1897, was:

Due on Bonds of the Society of the New York Hospital.	\$35,000.	
Due on Mortgage on Real Estate.....	25,000.	\$60,000.00
Cash on hand December 31st, 1897.....		<u>73,252.45</u>

In the appendix will be found the Treasurer's Report, showing the receipts and disbursements of the Society from all sources and on all accounts for 1897.

During the year 1897, the Hospital in Fifteenth Street treated in all its departments 15,575 patients, divided as follows :

In the general wards 5,196 patients. The highest census of the wards was 200, and the lowest 137, the average daily number being 170. The total

days of treatment of ward patients was 65,466, of which number 81% were entirely free. The average number of days of treatment per patient was 12. The number of ambulance calls was 1,695, the average calls per day being 4.

In the Out Patient Department 10,379 patients received Medical or Surgical care, and of this number, 9,578 were treated in the afternoon classes, and 801 in the evening classes. The total number of visits of patients for the year was 47,305, and the prescriptions compounded 34,525.

At the House of Relief there were treated in the Out Patient Department 30,920 patients, aggregating 81,900 visits, which is an increase over 1896, of 4,530 patients, and of 9,165 visits. Those whose injuries required retention in the wards for varying periods, numbered 2,251, aggregating 10,080 Hospital days. In the ambulance department 3,328 calls were responded to, an average of 9 calls per day.

The service at the House of Relief is absolutely free, and was maintained for the year at a cost to the Society of \$32,693.80.

The results of treatment in both the medical and surgical departments of the Fifteenth Street Hospital and House of Relief are accurately shown in the table of statistics, carefully compiled and printed in the appendix.

The work of the Training School for Nurses has continued without special incident during the year. The recent change in the course from two to three years, and from two classes a year to one, has been accomplished without any disturbance of established routine. The number of applicants from all parts of the country for admission continues far in excess of our capacity. In addition to the facilities furnished by the Hospital proper, the pupils have continued to receive the special training in emergencies by serving for a given period at the House of Relief, and, also, in obstetrical nursing at the Lying-In Hospital in this city.

Since the establishment of the school in 1877, three hundred and sixty three pupils have completed their course of instruction. Many of these graduates are holding positions of responsibility in other institutions while the greater number are engaged in private nursing.

The Hospital for the treatment of mental diseases at Bloomingdale, White Plains, during 1897, had under treatment 447 patients, divided in the proportion of 217 males to 230 females. Of the total number of cases discharged during

the year, namely 106; 30 patients recovered; 37 improved; 12 did not improve, and 27 died. Fifty-nine per cent. of the patients treated did not pay the entire cost of their support.

The report of the Medical Superintendent, Dr. SAMUEL B. LYON, to the Board of Governors, will be found in the appendix and reference thereto is made for a classified statement of the results of treatment and other details of the Institution.

Accommodations for the reception of convalescents from the Hospital in Fifteenth Street in the old Farm House, which the Board set apart for this purpose, are sufficient for a very limited number, and until it is demonstrated that such a place is called for no larger outlay will be made.

For several years past the Governors have had under consideration the construction of new buildings on west Fifteenth and Sixteenth Streets, and the making of certain needed interior alterations to the Hospital proper. Plans have recently been adopted by the Board which provide for tearing down the old Administration Building, and erecting thereon a two story building to contain the Executive Department of the Society and the Out Patient Department; adjoining to the Westward, a building for the accommodation of private patients, with operating rooms, isolating wards, and accommodations for the House Staff; adjoining still to the Westward, a building for the Superintendent and family. On Fifteenth Street, adjoining the Hospital, a building to accommodate the Ambulance Department, dormitories for female servants and accommodations for the Laundry of the entire establishment.

Against the urgent request of his associates, MERRITT TRIMBLE has resigned as President and a member of the Board of Governors, feeling a desire to be relieved from the responsibilities of the office. He was a Governor for twenty-five years, and faithfully performed the duties as President, from April 7, 1891, to December 7, 1897. The Board adopted and spread upon their Minutes an expression of their appreciation of Mr. TRIMBLE's services.

During the past year the Governors have been called upon to record the loss, by death, of one of their associates, CHARLES E. STRONG.

Mr. STRONG was a member of several important standing Committees of the Board, and Chairman of the Building Committee in charge of the construc-

tion of the new Bloomingdale at White Plains, and was untiring in his devotion to the duties of the office.

Mr. STRONG was elected a member of the Society in April, 1877, and a Governor in June of that year, and served continuously in the latter office until his death, which occurred October 1st, 1897.

SHEPPARD GANDY,
President.

HENRY W. CRANE,
Secretary.

NEW YORK, February 1st, 1898.

The Society of the New York Hospital, Bloomingdale, White Plains.

THE ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT.

To the Governors of THE NEW YORK HOSPITAL.

GENTLEMEN:—In compliance with a By-law of your Honorable Board the following report of the operations of this department of the Hospital for the year 1897 is respectfully submitted :

TABLE No. 1.
STATISTICS FOR THE YEAR 1897.

	MEN.	WOMEN.	TOTAL.
There were under treatment, Jan. 1st, 1897.	145	169	314
“ admitted in the year.	72	61	133
“ treated “ “	217	230	447
The discharges were : Recovered.	17	13	30
Improved.	20	17	37
Unimproved	10	2	12
By death.	19	8	27
Total.	66	40	106
There were under treatment, Dec. 31st, 1897.	151	190	341
The average number under treatment was.	144	174	318
The lowest number was: Men, in February.	139
“ “ “ Women, in February	164	..
“ total was, in February	304
The highest number was: Men, in August.	152
“ “ “ Women, in December.	186	..
“ total was, in December	341

PERSONS AND CASES.

There were two less persons than cases treated, there being one man and one woman who were discharged, and readmitted in the course of the year.

ADMISSIONS.

There were 133 patients, 72 men and 61 women, admitted during the year. Twelve patients, 5 men and 7 women, had been discharged from the Institution prior to January 1st, 1897, 1 woman three times, 1 woman twice, and 5 women and 5 men each once. Of those readmitted for the first time, 2 men and 3 women were discharged as recovered, 3 men and 2 women as improved; 1 woman has been discharged three times as recovered, and 1 woman once as recovered, and once as improved.

One hundred and six of the admissions, 67 men and 49 women, were first attacks, 91 of which, 53 men and 38 women, were admitted first to Bloomingdale. Deducting from the whole number of admissions 9 cases that had been admitted in previous years, and 91 admissions in first attacks, leaves 33 cases that have been either treated at home or in some other Institutions previous to admission here.

Sixty-two patients were admitted 3 months or less after the first symptoms of mental disease were noticed by their friends; 13 between 3 and 6 months; 15 between 6 and 12 months, and 43 more than a year.

The following table shows the form of disease existing, and the results obtained in the 133 cases admitted during the year:

TABLE 2,
ADMISSIONS DURING THE YEAR 1897.

FORM OF DISEASE.	PATIENTS ADMITTED.			RESULT IN THOSE DISCHARGED.								CONDITION OF THOSE REMAIN- ING.

Dementia, Post-Paralytic.	2	0	2	0	0	0	0	0	0	1	0	0	0	1	0	0	0
Primary Delusional Insanity.	13	13	26	0	0	4	2	0	1	0	0	0	0	7	6	2	4
General Paresis.	28	3	31	0	0	3	0	3	0	3	1	0	0	3	0	16	2
Not insane (voluntary patients).	2	0	2	0	0	2	0	0	0	0	0	0	0	0	0	0	0
Total.	72	61	133	10	6	14	13	4	1	6	5	4	2	13	18	21	16

Of the cases of Acute Mania, 1 man and 2 women were alcoholic.

Of the cases of Acute Melancholia, 2 men were alcoholic, and 1 was a narcotic. Of the cases of Sub-acute Melancholia, 1 man was a narcotic case.

These cases were distinctly insane.

The two cases "not insane" were voluntary, and were not legally committed; they were both alcoholic habitues, and were discharged improved.

TABLE 3,
SHOWING AGE OF PATIENTS ADMITTED IN 1897.

	MALE.	FEMALE.	TOTAL.
Under fifteen years.....	0	0	0
From fifteen to twenty years.....	2	1	3

Pregnancy	0	1	1
Sexual excesses	1	0	1
Traumatic causes.....	2	0	2
Unknown.....	10	15	25
Total	72	61	133

By reference to table No. 2, it will be seen that of the 133 admissions during the year, there were 31 cases of general paresis, and among the remainder there were 45 cases in which their insanity had existed for more than a year. This leaves only 57 recent cases, which includes many degenerative and unfavorable types, which are called acute, because of recent manifestation of active mental symptoms. It is from recent cases that we obtain the greatest number of recoveries, and when the number of hopeful cases admitted is decreased, there is naturally a falling off in the percentage of recoveries.

DISCHARGES.

The number of recoveries was 30, 17 men and 13 women. They were 28 per cent. of all discharges, including deaths; 26 per cent. of the men who were discharged or died, and 32 per cent. of the women who were discharged or died.

Twenty-three patients, 14 men and 9 women, recovered from the first attack; six, 2 men and 4 women, from the second, and 1 man from the seventh attack.

In the cases that recovered, the average duration of the disease from invasion to recovery was 16 months and 3 days; of the men 11 months and 17

days, and of the women, 21 months and 16 days. The average duration of treatment was 12 months and 17 days; of the men, 7 months and 7 days, and of the women 19 months and 15 days. The longest period of treatment was 4 years and 1 month of 1 man, and 7 years and 6 months of 1 woman; the shortest was 1 month and 3 days of 1 man, and 1 month and 3 days of 1 woman.

Among those discharged recovered, there was 1 woman who had been under treatment for 7 years and 6 months, another for 5 years and 11 months, and 1 man for 4 years and 1 month. The long duration of treatment in these three cases makes the average duration of treatment in all the cases of recovery more than twice as long as it was last year. If these three cases are deducted from the number of recoveries, the average duration of treatment in the remaining 27 cases is 6 months and 8 days, instead of 12 months and 17 days.

The disease was reported to have existed before admission, an average of 3 months and 16 days; in the men 4 months and 22 days; and in the women 2 months and 2 days.

Fifteen patients, 11 men and 4 women, recovered from mania, and 15, 6 men and 9 women, from melancholia.

No simple drug habitues or voluntary cases were discharged as recovered.

Of the 37 cases, 20 men and 17 women, who were discharged as improved, 2 men seemed likely at the time of their removal by friends to recover if continued under treatment.

Of the 14 patients, 12 men and 2 women, who were discharged unimproved, none of them at the time of their discharge seemed likely to recover.

DEATHS.

The number of deaths during the year was 27, 19 men and 8 women.

Sixteen cases, 14 men and 2 women, died of general paresis.

Of the remaining 11 cases, 3 women died of acute mania, 1 of simple exhaustion, 1 of exhaustion of acute mania and acute gastritis, and 1 of acute pleuritis and fatty disease of the heart. This last one was complicated with acute alcoholism.

Three cases of terminal dementia died, 1 man of exhaustion following reduction of strangulated hernia and fatty disease of the heart, 1 woman of senility and marasmus, and 1 woman of acute pleuritis.

Three cases of senile dementia died, 1 of exhaustion of senility, and tumor of the pancreas, 1 of exhaustion following lithotomy, and 1 of exhaustion of senility.

One case of post-apoplectic dementia, a man, died of cerebral apoplexy.

One woman, a case of primary delusional insanity, died of acute bronchitis, marasmus, and chronic nephritis.

Among the above 27 deaths, there were only 3 acute cases, the physical and mental diseases in the remaining 24 cases having existed for periods ranging from 1 to 31 years.

The deaths in the 3 acute cases occurred after they had been under treatment for periods ranging from 1 to 7 days.

Among the chronic cases, one patient had been under treatment for 30 years and 10 months, 1 for 30 years and 7 months, 1 for 10 years and 3 months, 2 for 5 years and 3 months, 1 for 4 years, and the remainder for shorter periods.

The average time they spent in the Institution was 4 years, 9 months and 6 days.

In the 16 cases of general paresis, the longest period of their hospital treatment was 5 years, 9 months and 7 days; the next longest, 5 years and 2 months; the shortest was 2 weeks, the average time that they were under treatment being 2 years, 1 month and 24 days.

The longest time from marked manifestation of disease prior to admission, was said to have been 2 years in each of 4 cases; the shortest was 2 weeks; the average was 10 months and 24 days. The longest period from first manifestation to death, was 6 years and 2 months; the shortest was 7 weeks.

The average duration of the disease from first manifestation to death, was 3 years and 18 days.

The total number of deaths was at the rate of 6 per cent. of all the cases treated; in the men 8.5 per cent., and in the women 3.5 per cent.

As an annual report issued immediately after the close of the year, includes in its statistics cases received near the end of the year, in which the results of treatment have not yet been ascertained, and as the carrying of such cases as to prognosis or results into the next year confuses the facts, it has seemed in this report not uninteresting to take the admissions for the first 6 months, and to see what results have been obtained in their treatment. Not less than 6 months have elapsed in any case since it was admitted. Where patients have gone away, the results are given as nearly as could be judged at the time of discharge, and have been corrected as new facts have reached us as to them

As far as is practicable, consent to the admission of patients here is based on their presumably hopeful character, but it is not possible to adhere closely to such a programme, as various influences compel the reception of many chronic or hopeless cases; and in judging of results of hospital treatment, it is necessary to eliminate such patients as are known to be suffering from what is absolutely hopeless of cure, though capable of amelioration. The following table shows a general classification, and the results in 60 cases admitted from Jan. 1st, to June 30, 1897:

TABLE No. 7.
SHOWING RESULTS IN ALL CASES ADMITTED FROM JANUARY 1ST
TO JUNE 1ST, 1897.

FORM OF DISEASE.	ASSUMED CURABILITY.				RESULTS IN THE 23 FAVORABLE CASES.				
	HOPE- LESS.	UNFAV- ORABLE.	FAVOR- ABLE.	TOTAL.	RECOV- ERED.	IM- PROVED.	UNIM- PROVED.	DIED.	TOTAL.
General Paresis	11
Paranoia.....	14
Melancholia, Acute.....	17	..	10	2	5	..	17
Melancholia, Chronic....	..	4
Mania, Acute.....	6	..	5	1	6
Mania, Chronic.....	..	2
Dementia.....	6
	31	6	23	60	23

The classes classed as hopeless, were 31 out of 60 cases received. None of these were expected to or did recover. Of the 6 cases classed as unfavorable, 1, a case of chronic melancholia, recovered. The cases classed as favorable, were 23 out of 60 cases received. Of the 23 cases regarded as favorable, and likely to recover under proper treatment, 15 did so recover, 2 improved materially, 5 made slight improvement, and 1 died. Of the 17 cases of acute melancholia which recovered, 8 were under 45 years of age, and 9 over that age.

Of the 14 cases of paranoia, none recovered, but 5 cases improved so much that the friends determined to give them a trial outside. If bad results have followed, we have not been informed of it.

A new system of statistical reports has been suggested by the American Medico-Psychological Association. The system has not been adopted in this report on account of the breach of continuity the change involves, and the difficulty in reconciling the various discrepancies.

During the past 6 months, the eyes of 76 patients have been carefully examined by Dr. R. G. REESE, of the New York Eye and Ear Infirmary, with a view of discovering any pathological condition that might exist, and if so, to observe what relation, if any, they bore to the various mental diseases.

Many showed pathological changes, such as contracted and irregular fields of vision, varying pupillary reflexes, impaired nutrition, muscular weakness, &c. Later, I hope with Dr. REESE to report these cases in detail.

Many cases of errors of refraction have been corrected, with benefit and comfort to the patient.

HYDROTHERAPEUTIC BATHS.

During the year, 42 male and 41 female patients were treated in our Hydrotherapeutic Department. Of the male cases 14 were in the acute stage, and of this number 8 recovered, 5 were much improved, and 1 showed no improvement.

Seventeen chronic cases were treated, and of these, 10 made more or less marked improvement, and 7 remained unimproved. Five cases of paranoia among these which improved were discharged to the care of relatives, and as far as we have heard, have got along well at home. Eleven cases of paresis (not included above) were treated. In 5 of these there seemed to be temporary improvement in nutrition and bodily condition, and the progress of the disease appeared to be retarded. Two of these were discharged during remission. Five cases showed no improvement, but steadily progressed in spite of all efforts to stay the advance of the disease.

Of the 41 women treated, 16 were acute cases. Of these 7 recovered, 7 were discharged improved or remain under treatment, and two were unimproved. Twenty-five chronic cases were treated. More than half these were cases of dementia of long standing, and many were dirty and untidy in habits. Of these, 10 showed material improvement in habits and in bodily condition, with more or less mental improvement. In one case of circular insanity of 10 years duration, in which the disease showed a regular periodicity, treatment was commenced immediately following the excited stage, and was continued for 10 months. There was continued and steady improvement without a relapse or active manifestation of the disease. For the past 11 months she has been living at home, and while she shows mild dementia, is cheerful and happy,

travels about alone, and takes care of herself. Fifteen chronic cases showed little or no improvement.

In all these cases, hydrotherapy was combined more or less with general medical treatment, and it is impossible to say to what extent improvement was due to baths alone, but from careful observation of these various cases, both acute and chronic, I am convinced that in it we have a valuable adjunct and therapeutic aid in the treatment of nervous and mental diseases. These baths are always administered in the presence of a physician, and the hot air, the pressure, temperature and duration of the water, and the hot and cold pack, are directed according to indications in each individual case.

In the acute excitable conditions, the vapor bath, followed by tepid water spray, frequently has sedative effect. Then the temperature of the water is gradually lowered, and the pressure increased as rapidly as is indicated by patients reaction and condition. As a rule, in the acute depressed and chronic cases, the improvement first observed is in their circulation and nutrition. Rheumatism and neuritis were benefited by the Scotch douché.

The range of temperature which we have generally employed has been, for the vapor bath (hot air) 125° to 155° F., the water 55° to 90° F., and the water pressure from 20 to 35 lbs.

Sphygmographic tracings taken before and after the baths showed improved tension and character of the pulse, with increased force and a firmer up-stroke.

A decided advantage of this treatment is that almost without exception, *the patients like it*. They come out of the bath feeling refreshed and stimulated, and are anxious for the next treatment.

GENERAL REMARKS.

There were 5 more admissions this year than last.

The average number of patients of all kinds in the Institution was 318, 6 more than the average of the preceding year.

The number of weeks board and treatment furnished for patients was 16,628½. The expenditure per average patient was \$11.50 per week, not including the reimbursement to the Institution by the friends of patients of the wages paid for private attendants.

Seventy-two women were beneficiaries of the JOHN C. GREEN Memorial Fund during the year 1897. The amount of income received from that fund and expended for these women in 1897, was \$8,459.68. The total charitable

expenditures during 1897 in caring for and treating patients (largely acute and presumably hopeful cases) was \$43,716.25. Two hundred and sixty-four individuals shared in this assistance, some being entirely and others partially supported. The sum of \$35,256.57 was expended for this purpose from the earnings of the corporation during the year 1897. Nearly 9 per cent. of those treated contributed nothing whatever to their support. Fifty-nine per cent. paid from the bare cost of their care to nothing. Only 41 per cent. paid any profit to the Institution, which receiving no public or State or City aid, is self supporting, and devotes all excess of its receipts over its expenses to the improvement of the Institution and the support of its beneficiaries. The total support, and the partial assistance rendered to patients unable to pay for their entire care to the Hospital being equivalent to maintaining 84 free beds.

The Hospital has made full use of all its facilities in taking care of and treating patients during the past year, with a gratifying amount of success in the number of cures achieved, and cases in which a marked improvement was manifested. A Static Electrical Machine, of the best type, has been used in appropriate cases with gratifying results.

The Amusement Pavilion has continued to be a most useful adjunct of the Hospital, and of benefit to many patients on both sides of the House. The men patients have had the greatest benefit from it, resorting to it some part of every day, except Sunday; but three afternoons a week it has been reserved for the use of the ladies, who have practiced in the gymnasium, rolled tenpins, and played upon the billiard and pool tables, or in the racquet court.

A trained teacher of Dr. SARGENT'S method of Physical Culture, has organized a class of women patients, who manifest much interest in the systematic exercises given.

I am glad to be able to report that another year has passed without any accident of a serious character, suicide or successful elopement. While this has been the case, a large degree of liberty has been granted to patients deemed trustworthy. Patients have gone on their wheels to our neighboring bathing place, and in some instances have been allowed to go unattended about the adjacent country. A considerable amount of comfort and satisfaction to their pride and self esteem has resulted, as well, as in some cases, a completion of their convalescence. Many patients seem to respond favorably to confidence shown them, and the whole air of the Hospital seems freer for some individual liberty so given.

As heretofore, all the usual functions have prevailed during the year—the winter entertainments, the summer drives, salt baths at the neighboring shore, the religious services, &c., &c., with the usual success in entertaining and benefiting the patients. The nurses' and patients' schools have gone on with success, and with increased numbers. A class have received certificates of having attended and shown on examination a reasonable proficiency.

No changes have taken place in the staff during the year; and among the attendants, a disposition to do better work and to remain contentedly has been shown. Fewer changes in those engaged in the practical work of the Hospital have occurred than has sometimes been the case; and it is pleasant to be able to commend the faithfulness to duty generally shown during the year.

In the beginning of May last, provision for a limited number of convalescent patients from the Wards of the New York Hospital in New York was made at the Old Farm House here, distant from the building devoted to insane patients about 1,000 feet, and entirely disconnected from them. From the time of opening this home to such convalescents until the cold weather came, after which the patients did not appear to desire to pass a time in the country to complete their convalescence, 21 persons resided for varying periods at the home, and 89 weeks' board were furnished.

SAMUEL B. LYON,
Medical Superintendent.

THE SOCIETY OF THE NEW YORK HOSPITAL
BLOOMINGDALE, WHITE PLAINS.

GENERAL TABLE OF STATISTICS,

Compiled from the Annual Reports of the Institution.

TREASURER'S REPORT.

The receipts and payments of the Society of
on all accounts, for the

Receipts:

Balance cash on hand January 1st, 1897	\$28,251 07
On account of board and treatment of patients in the several departments of the service	276,119 45
One year's income from the JOHN C. GREEN Memorial Fund	8,459 68
One year's income from the WM. H. FOGG Memorial Fund	900 00
Rents and ground rents	167,733 51
Award for opening 116th Street, between Riverside Avenue and Boulevard, less assessment for same	33,528 09
Assessment paid for 12th Avenue opening, between 59th and 155th Streets, refunded	2,075 93
Temporary deposit, Real Estate account	70,000 00
Investment account JOHN C. GREEN Memorial Fund:	
Principal of mortgages paid off, and temporary deposits in Trust Co.	85,090 00
Donations, subscriptions and interest	2,785 01
	\$674,942 74

The undersigned, a Committee appointed in obedience to the By-Laws to

NEW YORK, January 28th, 1898.

TREASURER'S REPORT.

the New York Hospital from all sources and year 1897, are as follows:

Payments:

On account of support of patients in its several departments,	\$426,312 54
One year's income from the JOHN C. GREEN Memorial Fund	8,459 68
Expenses of the Pathological Department.....	3,160 65
On account of purchase of real estate 18th ward.....	25,000 00
Investment Account, JOHN C. GREEN Memorial Fund, loan on mortgage and temporary deposits in Trust Co.....	85,090 00
Temporary deposit, Real Estate Account.....	20,000 00
Interest on Hospital Bonds and Mortgage.....	1,680 56
Legal Services, Insurance, etc.....	6,268 35
City Taxes and Assessments.....	25,718 51
Balance cash on hand December 31, 1897.....	73,252 45

The excess of expenditures over receipts on account of support of patients in the several departments of the service for the year 1897 was \$150,193.09.

\$674,942 74

J. EDWARD SIMMONS, *Treasurer*,

audit the accounts of the Society, have examined the same and find them correct.

GOVERNORS

OF

The Society of the New York Hospital.

The following is a list of the names of Governors from the commencement of the institution to the fourth of January, 1898, with the date of their respective elections, and the length of time they continued in office :

GOVERNORS.	Elect- ed.	Re- signed.	Served the Institution.	
A.				
Charles Ward Apthorp	1770	1784	14 years	
William Axtell	1770	1784	14 years	
John Alsop	1784	1788	4 years	
Gilbert Aspinwall	1799	1809	} 15 years	Died in office, 1819.
Gilbert Aspinwall	1811	1812		
Gilbert Aspinwall	1815			
John Atkinson	1800	1809	9 years	
John Aspinwall	1814	1817	3 years	
John Adams	1818	1854	36 years	
Stephen Allen	1823	1830	} 24 years	Died in office, 1852.
Stephen Allen	1835			
Augustin Averill	1848	1857	9 years	
John Jacob Astor	1860	1864	4 years	
George W. Abbe	1877		2 years	Died in office, 1879.
William W. Astor	1879	1882	3 years	
B.				
Gerardus William Beekman	1770	1777	7 years	
George Bowne	1770	1784	} 26 years	
George Bowne	1785	1797		
William Bayard	1777	1784	} 9 years	
William Bayard	1800	1802		
Robert Bowne	1784		34 years	Died in office, 1818.
Aaron Burr	1784	1792	8 years	
James Beekman	1785	1787	2 years	
Theophylact Bache	1785	1797	12 years	
Thomas Buchanan	1785	1800	15 years	
Francis Basset	1785	1787	2 years	
William Backhouse	1787	1792	5 years	
Nicholas Bayard	1794	1798	4 years	
John Barrow	1795	1807	12 years	
Samuel Bowne	1796	1797	1 year	
Walter Bowne	1800	1805	5 years	
Dr. Samuel Bard	1801	1802	1 year	
Rev. Abraham Beach	1801	1806	5 years	
Thomas Buckley	1802	1842	40 years	
John Bogert	1804	1817	13 years	
John L. Bowne	1810	1815	5 years	
Abraham Barker	1813	1816	3 years	
Robert H. Bowne	1815	1827	12 years	
William Bayard, Jr.	1818	1823	5 years	

LIST OF GOVERNORS.

GOVERNORS.	Elected.	Resigned.	Served the Institution.

TO THE LEGISLATURE
OF THE
STATE OF NEW YORK.

The Governors of the Society of the New York Hospital respectfully present their Annual Report of the state of the Institutions under their charge for the year 1898, as required by law.

The Society of the New York Hospital, One Hundred and Twenty-eighth Annual Report.

The Board of Governors of the Society of the New York Hospital in conformity with the provisions of its Charter, granted by George Third of England, June 13th, 1771, present herewith the One hundred and twenty-eighth report of the several Institutions under their control and management, located as follows :

The Hospital at Fifteenth and Sixteenth Streets, between Fifth and Sixth Avenues; the House of Relief at 67 and 69 Hudson Street, for the treatment of emergency cases; and the Department for the treatment of mental diseases, known as Bloomingdale, located at White Plains, Westchester County.

All these Institutions have maintained and treated during the past year the large aggregate of 54,879 patients, an increase of 5,686 patients over 1897. The grand total treated since the commencement of Hospital work, January 3rd, 1791, is 844,634.

The financial condition of this Corporation on the 31st of December, 1898, was :

Due on Bonds of the Society of the New York Hospital.	\$20,000.
Due on Mortgage on Real Estate and temporary loans. .	<u>82,000.</u>
Cash on hand December 31st, 1898.....	<u>4,142.52</u>

In the appendix will be found the Treasurer's Report, showing the receipts and disbursements of the Society from all sources and on all accounts for 1898.

At the Hospital in West Fifteenth Street the total number of patients receiving care and treatment in its general wards, was 5,898 as compared with 5,196 for the year 1897, and in the Out Patient Department, 11,258 patients as compared with 10,379 for the previous year, thus showing a substantial increase in the number of patients treated in both departments of the Hospital. The

average daily census in the wards of the Hospital was 177, the highest number being 206, and the lowest 135. The total days of treatment of ward patients was 64,839, and of this amount 76 per cent. were treated wholly free. The number of ambulance calls aggregated 2,125, this being the largest number of calls in any one year since the establishment of the service.

In the Out Patient Department, designed for that class of patients who do not require a bed in the Hospital, the number of new patients treated during the year in the afternoon classes was 10,288, aggregating 42,860 visits, and in the evening classes 970 new patients and 7,633 visits; the total prescriptions compounded for both services were 35,555.

At the House of Relief, located at the corner of Hudson and Jay Streets, patients receiving care and treatment in the general wards of the Institution numbered 245, and in the Reception Ward, 2,117, with a total aggregate of 11,078 days of hospital care. In the Out Patient Department there were treated 34,929 patients, aggregating 90,955 visits. The Ambulance Department responded to 3,581 calls, the daily average calls numbering 10. The service at the House of Relief is entirely free and was maintained for the year at a cost of \$36,736.12.

The total number of patients receiving care at Bloomingdale, White Plains, for the year 1898, was 432, 191 men and 241 women, and the grand total since the Institution was opened in 1821, 9,930. The proportion of patients receiving absolutely free treatment was 10 per cent. Sixty-one per cent. of the patients treated did not pay the entire cost of their support.

A report by the Medical Superintendent, Dr. SAMUEL B. LYON, accompanies this report.

In the appendix will be found carefully prepared tables compiled under the direction of the Committee on Statistics, showing the results of treatment in the various classes of disease.

During the past Summer when it became apparent, owing to the War with Spain, that the invalid soldiers would require the services of the Hospitals throughout the country, the Governors offered to the War Department to receive at its several Institutions, to the full extent of its capacity, and *free of cost*, those requiring medical or surgical care. In accordance with that offer the New York Hospital received and treated between July 26, and December 31,

1898, 195, and the House of Relief for the same period, 81 enlisted men; of this total number only 20 were received at the Hospital upon the order of the United States Government and 43 at the House of Relief, the balance being admitted upon application of friends or by the soldier himself.

Typhoid Fever was prevalent among the Volunteers admitted, 91 cases being treated at the Hospital, of which 82 recovered and 9 died, while at the House of Relief of 22 cases treated, 17 recovered and 5 died; this large percentage of recoveries illustrates forcibly the efficient and untiring services of the Medical and Nursing Staff, also the results of the modern treatment of the disease. The Governors take this opportunity of expressing their appreciation of the valuable services rendered.

At the request of the Red Cross Auxilliary for the support of Trained Nurses and with the approval of the Governors, Miss IRENE H. SUTLIFFE, Directress of Nurses, went to Camp Black at Hempstead, L. I. The unprepared condition of the Camp was such as to compel her to remain much longer than she anticipated, her service continuing for a period of three weeks, during which time she organized and successfully carried on the work of caring for the sick.

Forty-one Graduates of the Training School have served in the various camps and post hospitals, including Cuba, Porto Rico and the Philippines, and the reports thus far received show faithful and efficient work performed.

The New York Hospital Library, organized in 1796, was closed in March last, and the collection of books, numbering about 23,000 volumes, presented to the New York Academy of Medicine. This action was taken by the Board after a careful consideration of the subject which disclosed the fact that the Library would require a large annual expenditure in order to bring it up to the required standard, and in view of the further fact that there are now several fully equipped Libraries of Medical and Surgical literature open to the student and practitioner, the Governors felt that the purposes for which the old Library was founded had ceased to exist.

Appended to this report will be found a history of the Library, written by A. BRAYTON BALL, M. D., Attending Physician to the Hospital, and also a recent member of the Library Committee.

The proposed new buildings on West 15th and 16th Streets, adjoining the Hospital, reference to which was made in a previous report, are being rapidly

constructed, and it is expected that several of the buildings will be completed by the close of the year 1899.

As a valuable addition to the history of the Society, the Governors insert in this report the portraits of 70 Attending Physicians and Surgeons who have been connected with the Hospital and Bloomingdale.

They also append a list of those who have served the Hospital in the above capacity and whose portraits they have been unable to obtain.

SHEPPARD GANDY,

President.

HENRY W. CRANE,

Secretary.

NEW YORK, February 8th, 1899.

The Society of the New York Hospital, Bloomingdale, White Plains.

THE ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT.

To the Governors of THE NEW YORK HOSPITAL.

GENTLEMEN:—In compliance with a By-law of your Honorable Board the following report of the operations of this department of the Hospital for the year 1898 is respectfully submitted :

TABLE No. 1.
STATISTICS FOR THE YEAR 1898.

	MEN.	WOMEN.	TOTAL.
There were under treatment; Jan. 1st, 1898....	151	190	341
" admitted in the year.....	40	51	91
" treated " " 	191	241	432
The discharges were : Recovered.....	11	16	27
Improved.....	17	17	34
Unimproved	6	12	18
By death.....	17	10	27
Total.....	51	55	106
There were under treatment, Dec. 31st, 1898.....	140	186	326
The average number under treatment was.....	142	182	324
The lowest number was: Men, in August and October ..	135
" " " Women, in November.....	..	174	..
" total was, in October.....	313
The highest number was: Men, in February and March....	148
" " " Women, in March and December..	..	190	..
" total was, in March.....	337

PERSONS AND CASES.

There were two less persons than cases treated, there being two women who were discharged, and readmitted in the course of the year.

ADMISSIONS.

There were 91 patients, 40 men and 51 women, admitted during the year. Ten patients, 2 men and 8 women, had been discharged from the Institution prior to January 1st, 1898, 1 woman four times, 1 woman three times, 1 man twice, and 1 man once. Of those readmitted for the first time, 4 women had been discharged as recovered, and 1 man and 2 women as improved; 1 woman had been discharged three times as recovered, and once as improved, and 1 woman twice as recovered, and once as improved, and 1 man had been twice discharged recovered.

Seventy-five of the admissions, 37 men and 38 women, were first attacks, 61 of which, 30 men and 31 women, were admitted first to Bloomingdale. Deducting from the whole number of admissions 12 cases that had been admitted in previous years, and 61 admissions in first attacks, leaves 18 cases that have been either treated at home or in some other Institution previous to admission here.

Forty-eight patients were admitted 3 months or less after the first symptoms of mental disease were noticed by their friends; 8 between 3 and 6 months; 11 between 6 and 12 months, and 24 more than a year.

The following table shows the form of disease existing, and the results obtained in the 91 cases admitted during the year:

TABLE 2,
ADMISSIONS DURING THE YEAR 1898.

FORM OF DISEASE.	PATIENTS ADMITTED.			RESULT IN THOSE DISCHARGED.								CONDITION OF THOSE REMAIN- ING					
				Recov- ered.		Im- proved.		Unim- proved.		Died.		Conva- les't.		Im- proved.		Unim- proved.

Dementia, Terminal and Senile.	3	4	7	0	0	0	0	0	0	0	0	0	0	1	1	2	3
Dementia, Post-Paralytic	0	1	1	0	0	0	0	0	0	0	0	0	0	0	0	0	1
Dementia, Primary	3	1	4	0	0	0	0	0	0	0	0	0	0	3	0	0	1
Primary Delusional Insanity.	5	8	13	0	2	1	0	1	0	0	0	0	1	4	2	2	2
General Paresis	11	2	13	0	0	2	0	1	0	1	1	0	0	2	1	5	0
Epileptic Insanity	1	0	1	0	0	1	0	0	0	0	0	0	0	0	0	0	0
Not insane (voluntary patients)	1	0	1	1	0	0	0	0	0	0	0	0	0	0	0	0	0
Totals.	40	51	91	7	10	8	4	1	1	1	2	2	2	11	21	10	11

Of the cases of Acute Mania, 1 man and 1 woman were alcoholic.

Of the cases of Acute Melancholia, 1 man was a drug habitue. These cases were distinctly insane.

The one case "not insane" was voluntary, and was not legally committed; he was an alcoholic habitue, and was discharged recovered.

TABLE 3,
SHOWING AGE OF PATIENTS ADMITTED IN 1898.

Intemperance	5	2	7
Intemperance and syphilis	2	0	2
Moral causes (grief, anxiety, fright, business and domestic trouble.)	4	10	14
Overwork	6	3	9
Overstudy	1	0	1
Physical decay and ill-health	1	0	1
Sexual excesses	4	0	4
Traumatic causes	1	0	1
Senility	1	2	3
Unknown	4	9	13
Total	40	51	91

By reference to table No. 2, it will be seen that of the 91 admissions during the year there were 13 cases of general paresis, and among the remainder there were 26 cases in which their insanity had existed for more than a year. This leaves only 52 recent cases, which includes many degenerative and unfavorable types, which are called acute, because of recent manifestation of active mental symptoms. It is from recent cases that we obtain the greatest number of recoveries, and when the number of hopeful cases admitted is decreased, there is naturally a falling off in the percentage of recoveries.

DISCHARGES.

The number of recoveries was 27, 11 men and 16 women. They were 25 per cent. of all discharges, including deaths; 22 per cent. of the men who were discharged or died, and 29 per cent. of the women who were discharged or died.

Twenty-one patients, 8 men and 13 women, recovered from the first attack; two, 1 man and 1 woman, from the second; 1 man and 2 women from the third, and 1 man from the fourth attack.

In the cases that recovered, the average duration of the disease from invasion to recovery was 11 months and 24 days; of the men 15 months and 11 days, and of the women, 9 months and 10 days. The average duration of treatment was 6 months and 7 days; of the men 7 months and 17 days, and of the women 5 months and 24 days. The longest period of treatment was 2 years and 5 months of 1 man, and 2 years and 10 months of 1 woman; the shortest was 2 months and 9 days of 1 man, and 1 month and 5 days of 1 woman.

The disease was reported to have existed before admission an average of 3 months and 25 days; in the men, 4 months and 7 days, and in the women, 3 months and 16 days.

Eleven patients, 5 men and 6 women, recovered from mania, and 16, 6 men and 10 women, from melancholia.

No simple drug habitues or voluntary cases were discharged as recovered.

Of the 34 cases, 17 men and 17 women, who were discharged as improved, 1 man and 6 women seemed likely at the time of their discharge to recover if continued under treatment.

Of the 18 patients, 6 men and 12 women, who were discharged unimproved, none of them at the time of their discharge seemed likely to recover.

DEATHS.

The number of deaths during the year was 27, 17 men and 10 women. Eight cases, 7 men and 1 woman, died of general paresis.

Of the remaining 19 cases, 3 women died of acute melancholia; 1 of simple exhaustion; 1 of pneumonia, and 1 from intestinal constriction, following operation for hernia some months before.

Nine cases of terminal dementia died; 1 man of cerebral tumor; 2 men of senile decay; 1 man of phthisis; 1 woman of acute pleuritis; 1 woman of valvular disease of the heart and chronic nephritis; 2 women of senile decay, and 1 woman of senile decay and nephritis.

Three cases of epileptic insanity died; 1 man of epilepsy and senility; 1 man of epilepsy and mal-nutrition, and 1 woman of influenza.

Four cases of primary delusional insanity died; 1 man with pneumonia; 2 men with phthisis, and 1 man of exhaustion of maniacal excitement.

Among the above 27 deaths, there were only 3 acute cases, the physical and mental diseases in the remaining 24 cases having existed for periods ranging from 1 to 55 years.

The deaths in the 3 acute cases occurred after they had been under treatment for periods ranging from 1 to 4 weeks.

Among the chronic cases, 1 patient had been under treatment for 54 years and 2 months; 1 for 35 years and 10 months; 1 for 22 years and 7 months; 1

for 16 years and 2 months ; 1 for 12 years, and the remainder for periods less than 10 years.

The average time they spent in the Institution was 7 years, 11 months and 27 days.

In the 8 cases of general paresis, the longest period of their hospital treatment was 6 years, 1 month and 11 days ; the next longest, 2 years and 7 months ; the shortest was 3 months and 26 days, the average time they were under treatment being 1 year, 7 months and 2 days.

The longest time from marked manifestation of disease prior to admission was said to have been 2 years in 1 case ; the shortest was one week ; the average was 9 months and 22 days. The longest period from first manifestation to death was 6 years and 4 months ; the shortest was 11 months.

The average duration of the disease from first manifestation to death was said to have been 2 years, 4 months and 22 days.

The total number of deaths was at the rate of 6.25 per cent. of all the cases treated ; in the men 8.9 per cent., and in the women 4.5 per cent.

Several new remedies have been tried as follows :

"Diuretin," a stimulant for the kidneys, which was apparently an efficient medicine in a case of ascites and oedema of the feet, due to a cardiac lesion.

"Formalin Disinfectors" have been used in rooms which have been occupied by tuberculous patients.

"Chloralose" as a hypnotic secured sleep ; but was followed by headache and nausea, and had certain cumulative effects resulting after a few nights' rest, in rather alarming giddiness and weakness.

"Methyl-Salicylate" applied externally was found useful in acute rheumatism of the joints.

"Lactophenin" was tried as a substitute for phenacetine, and while having the same beneficial effects, it is thought to depress the heart less.

Urinalysis.—This is systematically made on the admission of each new case, and subsequently as required. But in December, urinalyses and microscopical examinations were made of specimens from all the women patients present, except 16, from whom specimens could not be obtained, and cases of diabetes and albumenuria in old cases were revealed.

One hundred and sixty specimens were examined ; 68 were apparently normal ; 58 contained an excess of phosphates ; 21 oxalate of calcium crystals ; 6 uric acid or urate crystals ; 3 only albumen (1 with casts, and 1 with sugar also) ; 6 sugar, (1 with oxalates ; 1 phosphates ; 1 urates ; 1 urates, phosphates and oxalates, and 1 albumen, as above, besides) ; 9 had a specific gravity below 1.010 and 7 above 1.030 ; 41 were clear and of normal appearance ; 88 pale and cloudy with flocculent deposit ; 31 dark and cloudy with flocculent deposit.

An epidemic of grip has prevailed toward the close of the year in which

66 women patients and 44 women employees, and 10 men patients and 11 men employees were affected. The epidemic was mild in type, but characterized by the recognized symptoms of coryza, pain in the back and limbs, fever, and in a few cases with a tendency toward pneumonia.

The following is a minute by the first assistant physician in attendance upon the women in relation to this disease:

"One hundred and ten cases of epidemic influenza, or grip, have occurred on the women's side, among patients and employees. The women occupy the north wing of the hospital, and are more exposed to the cold than are the men. The latter developed fewer cases.

The first case was a woman patient from New York, who had the disease when admitted, Dec. 5, and since that date grip has invaded every hall, the kitchen and laundry of the Institution. We were not able to trace a definite spread of the disease that would indicate its contagiousness. The first case was in Hall 4; the second case (Dec. 7) was a nurse in Hall 7, not a contiguous Hall, and the third case (Dec. 8) a patient in Hall 3, far distant. The disease gradually became epidemic. On Dec. 19, 20, 21 and 22, 31 new cases arose, while cases continue into January, as this report is preparing. No particular class of patients seem to be exempt, but the feeble, of course, suffer the most. Cases usually began with chills, malaise, aching pains and headache, followed by a rise of temperature of from 102° to 104° or even higher; short frequently-repeating cough; pain beneath the sternum; prostration, loss of appetite, and depression. Some cases responded at once to vigorous treatment and were only of a day or two's duration, but the majority were modified only in degree or alleviated symptomatically by treatment. Only four of the forty-four women employees affected had severe attacks, while twenty-four of the sixty-six women patients had severe attacks, four developing pneumonia, two of whom died, one having heart complications. One of the patients who died from pneumonia was the first case of grip, and was admitted with it. She had acute melancholia, had refused food for a week prior to admission, and showed an intolerance of food administered by tube and enema. The other death from pneumonia was a woman 88 years old, with chronic mania, difficult to treat on account of her delusions and suspicions. Very few cases were ill longer than a week, but all required tonic treatment after the attack. Two patients and two nurses had each two menses within 30 days subsequent to their attacks of grip. One nurse had double otitis media, and one nurse otitis media of one side. In two patients, mental improvement followed the grip, and one patient who never speaks, as a rule, talked freely and took medicine when very ill, relapsing into silence and surliness when she got well of grip. Two nurses had a second attack of grip within three weeks of first attack.

The treatment employed in all cases was largely symptomatic. At the

start whiskey, quinine and calomel were frequently used; then cough mixtures, salol and codeine, and antifebrin; later salicine and strychnine. Sometimes quinine was used during the entire attack in varying doses, usually tonic doses. In twenty-three cases protonuclein was tried, and all of these cases made a good recovery, though one had pneumonia, and four others were of a severe type."

The following is a minute by the woman assistant physician regarding cases which have come under her special observation:

"Thirty-two gynecological cases were treated. Of these, 23 were examined; of the rest, some refused examination, and some it was not considered wise to examine. Of the cases examined, 17 seemed to require treatment for leucorrhœa only. The treatment consisted of 1 per cent. creolin douches morning and evening where discharge was profuse; once a day where only slight. Soda biborate wash was also used as a medicant, 2 dr. to pint. All these cases improved, and in seven discharge stopped entirely.

Three cases were recommended for operation, a torn perineum being the principal trouble. One case was treated for metrorrhagia, the treatment consisting of local application twice weekly of tincture of iron to cervix, and iron douches, one-half dr. to pint. Case recovered. One case had erosion of os, and is being treated as above. Treatment has been interrupted by excitement of patient. One, a case of pruritus, was cured by local application of 5 per cent. solution of nitrate of silver twice weekly. Three cases presented retroversion of uterus. Two refused treatment; in the other case a pessary was used."

In addition to the usual medicinal remedies, electricity, hydrotherapy, and massage have been employed in appropriate cases. We have also had the services of an operator familiar with the salt rub baths, who had given such treatment in a general sanitarium. These various forms of baths, while by no means a panacea for every ill, do an appreciable amount of good in two ways; one, by their actual application, and, in the other, by encouraging patients and their friends to feel that something active is being done for them which is likely to improve their condition, thus invoking suggestion as an aid to cure.

A competent oculist, Dr. Reese, has continued during the year to examine the eyes of patients, completing the history of cases in this respect, and in certain instances, prescribing glasses, which have relieved eye strains.

Two cases of the opium habit were treated by the sudden and absolute withdrawal of the opium rather than by the tapering off treatment. These patients experienced much physical and mental distress for a few days, but after recovering from the shock, improved rapidly, while they showed no apparent craving for the drug, and since their discharge, after a considerable

time we have not heard of their relapsing. In one case, in which sciatica was a disagreeable feature when not under the influence of morphia, this condition was relieved by the static electrical treatment.

A case of scarlet fever, which broke out almost immediately after the admission of the patient, was successfully isolated, recovered, and no other case occurred.

In connection with occupation and diversion, and in an endeavor to reduce the monotony and tedium of a life of forced separation from active interests, which patients in an institution are naturally subjected to, we have continued to use most of the standard methods of all well-conducted hospitals for the insane; and as occasionally a new thing has been suggested, it has been adopted, as far as it seemed wise. As an instance of this, during the last year or two, there has been introduced into the market a cheap form of swing, for the use of children and others so inclined, with seats *vis-a-vis*, and kept moving by a slight motion of the occupants. These swings hang from standards capable of being folded and moved about, and have been set up anywhere in the grounds, under a tree or in the shadow of a building. We bought quite a number of these during the summer, setting them around in both the women's and men's grounds; and while they amused and diverted quite a large number of different people, they proved to be especially soothing to a class of unstable patients, serving as an outlet for their nervousness and surplus energy. This is a class of patients inclined to be in constant motion, destructive or irritable and occasionally violent, and to several such people, the swings seemed to act as a kind of moral restraint, and to reduce the confusion and discomforts of the disturbed halls to a very appreciable extent. When the summer was over, the swings were brought into some enclosed piazzas, and during the winter, they have been used in much the same way by a limited number of people.

Last year we secured the services, for a portion of the time, of a young lady who had devoted some study to the methods of physical culture, and she has remained during the year just ended; and in addition to the formal exercises under Dr. Sergeant's methods of gymnastics, she has endeavored to lead and encourage, furnishing the initiative to such patients as could intelligently take part in golf, tennis, or wheeling, excursions to the woods, lake, etc., and in this manner has added both to the welfare and the pleasure of such patients as are convalescing or almost rational, and who, if left to themselves, are apt to get into a discouraged, perhaps critical, and unfavorable condition for their own comfort and improvement.

All these various attempts at supplying a motive and interest in life soon reach their limitations, and are by no means of universal application, but that they do a distinct amount of good, and that they are factors in the improvement and recovery of a certain number of patients, I think there can be no doubt.

Among the diversions for women, a history class or school, was opened in November, 1898, and a sketching class for the warmer months was begun last September.

Over 66 per cent. of the women patients are occupied.

GENERAL REMARKS.

There were 42 less admissions this year than last.

The average number of patients in the institution was 324, 6 more than the average of the preceding year.

The number of weeks' board and treatment furnished for patients was 16,945 5-7, an excess over last year of 317 2-7 weeks. The expenditure per average patient was \$11.20 per week, not including the reimbursement to the Institution by the friends of patients of the wages paid for private attendants, a decrease of the cost per capita, per week, of 30 cents.

Sixty-one women were beneficiaries of the John C. Green memorial fund during the year 1898. The amount of income received from that fund and expended for these women in 1898 was \$6,746.35, a decrease from the income of that fund for the year 1897 of \$1,713.33. The total charitable expenditures during 1898 in caring for and treating patients (preferably acute and presumably hopeful cases) was \$50,484.13, an excess of charitable expenditure over 1897 of \$6,767.88, notwithstanding the decrease of the income of the John C. Green memorial fund, the only source of income Bloomingdale enjoys, other than that received from the board paid for patients. Two hundred and sixty-six individuals shared in this charitable assistance, some being entirely and others partially supported. The sum of \$43,737.78 was expended for this purpose from the earnings of Bloomingdale during the year 1898. More than 10 per cent. of those treated contributed nothing whatever to their support. Nearly 61 per cent. of the patients paid sums varying from nothing to the bare cost of their care. Only 39 per cent. paid a rate which secured a profit to the Institution, which receives no public, State or city aid, is self-supporting, and devotes all excess of its receipts over its expenses to the improvement of the Institution and the support of its beneficiaries. The total support, and the partial assistance rendered to patients unable to pay for their entire cost to the hospital, was equivalent to maintaining 88.4 free beds.

I can again report a year which is without history of an unpleasant character. We have fortunately escaped successful attempts at elopement, suicide or violence; our patients have enjoyed a large amount of liberty, and all the opportunity for enjoyment which it was felt could be safely given to them, the tendency being to err on the side of liberty rather than its curtailment, and I believe it is fair to say that among our population, both sane and insane, there is about as little chronic discontent as could be found in any aggregation of as

many people, even though a portion of them were not laboring under a distinct form of disease.

During the year the first assistant physician, Dr. Wm. E. Dold, resigned; Dr. Charles E. Atwood was promoted to first assistant physician, Dr. Albert Durham to second assistant physician, and we have had the services, one at a time, for limited but consecutive periods, as clinical assistants, doing such duty as they could be helpful in, without assuming much responsibility for treatment of patients, of the following doctors, all of whom have proved acceptable and efficient:

Smith Ely Jelliffe, M. D.; F. E. Shine, M. D.; Robert S. Tracy, M. D.; George E. Gallaway, M. D., and F. W. Shine, M. D., the latter being still in office at the close of the year.

For about a month, Dr. L. Muskens, an alienist and writer of some reputation, from Holland, resided here as a guest, making comparative observation in regard to the aspect of certain forms of mental disease here and in Holland, his home, and making such clinical and pathological suggestions as occurred to him. After leaving, he was pleased to write an acknowledgment of the attention shown him here, and his favorable opinion of the success attained in the effort to make this a model hospital.

On Friday, June 24, a class of 10 women and 3 men were graduated as trained attendants, and received a certificate of a successful examination after a two years' course of study, together with a distinctive badge or medal.

CONVALESCENT HOME FOR PATIENTS FROM THE NEW YORK HOSPITAL.

During the year, 1,089 days' board was furnished at the cottage adjoining the Bloomingdale buildings to convalescent patients from the New York Hospital, among whom were a number of soldiers, who were convalescent from the fevers incident to the late campaign in Cuba and Porto Rico. This convalescent home was maintained from the resources of Bloomingdale, without calling upon the New York Hospital for the time of physicians or nurses, or for the foods and medicines furnished. For a small affair, it seems to accomplish a distinct amount of good not otherwise obtainable by these persons, and the experience of the past two years during which this movement has been going on, would seem to justify an extension of the quarters for such people, providing a home for women first, perhaps, and eventually a much more suitable place for men than the remodeled farmhouse in which they are now quartered.

SAMUEL B. LYON,
Medical Superintendent.

THE SOCIETY OF THE NEW YORK HOSPITAL
BLOOMINGDALE, WHITE PLAINS.

GENERAL TABLE OF STATISTICS,

Compiled from the Annual Reports of the Institution.

TREASURER'S REPORT.

The receipts and payments of the Society of
on all accounts, for the

Receipts:

Balance cash on hand January 1st, 1898.....	\$73,252 45
On account of board and treatment of patients in the several departments of the service.....	273,462 26
One year's income from the JOHN C. GREEN Memorial Fund	6,746 35
One year's income from the WM. H. FOGG Memorial Fund.	900 00
Rents and ground rents	165,864 76
Temporary Loans.....	57,000 00
Investment account JOHN C. GREEN Memorial Fund:	
Principal of mortgages paid off, and temporary deposits in Trust Co.....	39,590 00
JAMES BOORMAN JOHNSTON Library Fund, deposit in Seamen's Bank for Savings.	177 37
Donations, subscriptions, etc.....	490 76

\$617,483 95

The undersigned, a Committee appointed in obedience to the By-Laws to

NEW YORK, January 28th, 1899.

TREASURER'S REPORT.

the New York Hospital from all sources and year 1898, are as follows:

Payments:

On account of support of patients in its several departments	\$429,216 54
One year's income from the JOHN C. GREEN Memorial Fund	6,746 35
Expenses of the Pathological Department.....	3,213 10
On account of construction of new buildings on West 15th and 16th Streets.....	66,438 00
Hospital Bonds paid off	15,000 00
Investment Account, JOHN C. GREEN Memorial Fund:	
Loan on mortgage and temporary deposits in Trust Co.	39,590 00
One-half cost paving with asphalt 116th Street, between Amsterdam Avenue and Boulevard.....	5,969 03
Interest on Hospital Bonds, Temporary Loans and Mortgage	3,263 33
Legal Services, Insurance, etc.....	10,187 60
City Taxes and Assessments.....	33,717 48
Balance cash on hand December 31, 1898.....	4,142 52

The excess of expenditures over receipts on account of support of patients in the several departments of the service for the year 1898 was \$155,754.08.

\$617,483 95

J. EDWARD SIMMONS, *Treasurer,*

audit the accounts of the Society, have examined the same and find them correct.

GOVERNORS

OF

The Society of the New York Hospital.

The following is a list of the names of Governors from the commencement of the institution to the first of January, 1899, with the date of their respective elections, and the length of time they continued in office :

GOVERNORS.	Elect- ed.	Re- signed.	Served the Institution.	
A.				
Charles Ward Apthorp	1770	1784	14 years	Died in office, 1819.
William Axtell	1770	1784	14 years	
John Alsop	1784	1788	4 years	
Gilbert Aspinwall	1799	1809	} 15 years	
Gilbert Aspinwall	1811	1812		
Gilbert Aspinwall	1815			
John Atkinson	1800	1809	9 years	
John Aspinwall	1814	1817	3 years	
John Adams	1818	1854	36 years	
Stephen Allen	1823	1830	} 24 years	Died in office, 1852.
Stephen Allen	1835			
Augustin Averill	1848	1857		
John Jacob Astor	1860	1864	4 years	
George W. Abbe	1877		2 years	Died in office, 1879.
William W. Astor	1879	1882	3 years	
B.				
Gerardus William Beekman	1770	1777	7 years	Died in office, 1818.
George Bowne	1770	1784	} 26 years	
George Bowne	1785	1797		
William Bayard	1777	1784	} 9 years	
William Bayard	1800	1802		
Robert Bowne	1784		34 years	
Aaron Burr	1784	1792	8 years	
James Beekman	1785	1787	2 years	
Theophylact Bache	1785	1797	12 years	
Thomas Buchanan	1785	1800	15 years	
Francis Basset	1785	1787	2 years	
William Backhouse	1787	1792	5 years	
Nicholas Bayard	1794	1798	4 years	
John Barrow	1795	1807	12 years	
Samuel Bowne	1796	1797	1 year	
Walter Bowne	1800	1805	5 years	
Dr. Samuel Bard	1801	1802	1 year	
Rev. Abraham Beach	1801	1806	5 years	
Thomas Buckley	1802	1842	40 years	
John Bogert	1804	1817	13 years	
John L. Bowne	1810	1815	5 years	
Abraham Barker	1813	1816	3 years	
Robert H. Bowne	1815	1827	12 years	
William Bayard, Jr.	1818	1823	5 years	

GOVERNORS.	Elected.	Re-signed.	Served the Institution.	
John L. Buckley	1842	1855	13 years	
James W. Beekman	1850	1854	} 23 years	Died in office, 1877.
James W. Beekman	1858			
Nathaniel P. Bailey	1858		33 years	Died in office, 1891.
James M. Brown	1861		29 years	Died in office, 1890.
Theodore B. Bronson	1864	1868	4 years

HISTORY OF THE LIBRARY
OF THE
NEW YORK HOSPITAL,
1796 - 1898,

BY
A. BRAYTON BALL, M.D.

*Attending Physician to the Hospital,
and also a recent member of the Library Committee.*

W. W. HOPPIN, ESQ., *Chairman of the Committee on the Annual Report of the New York Hospital.*

DEAR SIR:—In accordance with your request I have prepared the following Historical Report of the Library, compiled from the Records of the Hospital. It should be premised that although the Hospital Charter was granted on the 13th of June, 1771, the first Hospital Building was not erected and opened for admission of patients until 1791.

1795. "On June 2, 1795, the Faculty of Columbia College addressed the Board of Governors on the subject of establishing a Medical Library and Botanical Garden at the Hospital, and G. P. WALTON, T. EDDY, C. RAY, and JAMES WATSON were appointed a Committee to confer with them thereon, and to report their sentiments on the propriety of such an establishment to the next meeting."

1796. On July 8, the Committee report that "they have agreed to report to the Board to appropriate \$500 for a library; whereupon it was ordered that the said appropriation be made as recommended by the Committee, and the same members were appointed to draw on the Treasurer for the aforesaid sum of \$500, and to act with a Committee of the Physicians and Surgeons to fix on a proper room for the Library, procure the books, and to adopt such orders and regulations for the safe keeping of the books as they may think proper."

1797. A final report by the Committee was presented on August 1st, and the Library was opened in this year. Expended for book cases, £51.6.11: for books, £5.18.0. The first Librarian was the Apothecary of the Hospital.

1803. The Faculty of Physic of Columbia College presents \$97.43 for the purchase of books.

1805. On January 1st the Library was valued at \$1,500. At a meeting of the Medical Society of the State of New York, held April 9th, 1805, it was resolved that a Committee of three members be appointed to confer with the Governors of the New York Hospital on the subject of assigning the Library of this Society to the said Governors, to be added to the Hospital Library, and that they propose as a condition that the present members of the Society shall become entitled to a share in said Library, which share shall descend to a son of each member, provided he shall be a regularly bred physician and practitioner in this city." This proposal was accepted by the Board of Governors.

1811. Large additions to the Library made in this year; books to the value of \$100 presented by Dr. HAMERSLY; 116 volumes presented by FRANCIS B. WINTHROP; and the valuable Botanical Library of Dr. HOSACK, which was purchased for \$1,500. Only \$1,410 was paid, one year's interest being deducted for prompt payment.

1815. January 1. The Clerk of the Hospital was appointed Librarian.

1817. June 3. Resolution passed that "in future the fees received for tickets furnished to students of medicine for the privilege of visiting this Institution, and attending the practice of the same, and for the use of the Library, be appropriated wholly to the increase and support of the Library."

1829. JOHN W. STERLING, M. D. was appointed Librarian. He made a new catalogue, and states that the Library now contains 3,540 volumes. By comparison with the catalogue published in 1818, he finds that 76 volumes are missing. Four of the volumes were returned subsequently. The Librarian is directed to enforce the By-Law, which requires that books loaned be returned within *three months* from the time they were taken from the Library.

1830. Ordered that the Reading Room be open from 10 o'clock to 12 daily. "The Librarian regrets to state that *Hall on Diagnosis*, and *Dewees on Children*, are missing from the Library. As he is disposed to believe that the former has been lent by him to a gentleman, he anticipates its return, but as the latter was removed from the table in rather an oblique manner, he has no reason for such anticipation in relation to it."

1834. JOHN W. STERLING, Librarian, resigned. Appended to his report is a list of 172 volumes, which have been borrowed from the Library and not yet returned. Of this number 69 have been kept beyond the time allowed (three months), some of them as long as one, two and even three years. Among the culprits were such distinguished members of the medical profession as Dr. A. H. STEVENS, Dr. J. KEARNEY RODGERS, Dr. VALENTINE MOTT, Dr. JOHN C. CHEESEMAN, Dr. JOHN B. BECK, Dr. F. U. JOHNSTON, Dr. THOMAS C. CHALMERS and Dr. JOSEPH MATHER SMITH. Dr. JOHN WATSON served as Librarian from 1834 to 1837.

1837. JOHN L. VANDERVOORT, M. D., appointed Librarian. He was directed "to attend for the delivery of books on Mondays and Thursdays from one to two o'clock P. M., from the 1st of May to the 1st of November, and on Mondays, Thursdays and Saturdays during the remainder of the year at the same hours."

1842. "Resolved, that hereafter the Library be opened for delivery of books every day from 12 to 1 o'clock, Sunday excepted." The Librarian reports 44 books and journals missing, and advises strict enforcement of fines as provided in the By-Laws.

For several years past the receipts from the sale of Hospital Tickets to students, averaging over \$300 annually, have been sufficient to provide for the purchase of books, without any appropriations from the Board of Governors. In 1841 the receipts from tickets were \$514; in the present year only \$130. This falling off is ascribed by some to "the weekly clinics held in the medical schools, which seem to have the effect of keeping students from the Hospital." "The Committee would recommend to the Board a conference with the two schools, with the view of ascertaining whether they would be willing to pay a stipulated sum for the admission of their students to the Hospital." No action appears to have been taken on this resolution.

1843. The subject of Hospital Tickets comes up again for consideration. Previous to 1829 a single annual ticket was issued to students, which admitted them to both the wards and the Library. After that date two sets of tickets were issued, one for admission to the Hospital clinics at \$6 per annum, the other for the privileges of the Library at \$2.50. This arrangement, besides being responsible, in part at least, for the falling off in the receipts, had led also to "difficulties attending the enforcement of the By-Laws as they now stand, which cannot be readily overcome. The holders of a Library Ticket must, of necessity, be admitted into the Hospital to consult such works as they may require; when there, it would not only be a very unpleasant, but in general a difficult task, to prevent them from having access to the wards, and reaping all the rewards of a Hospital Ticket. The Committee will readily perceive the nature of the difficulty, which is occasioned by the present plan, and that if a number of students furnished with a Library Ticket were to continue together to visit the operating theatre, etc., no officer of the Institution would be able to close the doors against them without creating a disturbance." A return to the former custom of a single annual ticket with a charge of \$8 was urged, and the recommendation was adopted. The receipts rose to \$592 in 1843, and to \$1,008 in 1844. The minutes of the Library Committee acknowledge receipts from this source each year until 1857, after which they are not mentioned. In that year they had fallen to \$139. There is good reason to believe that tickets were sold after this time, possibly until the abandonment of the Hospital on Broadway and Duane street in 1869, but there is no positive evidence to this effect, and if a few tickets were sold, the receipts were probably turned over to the General Fund.

1846. Twenty-two volumes were presented by Dr. REYERE, to constitute him a life subscriber. In 1829 a resolution was passed that persons might be admitted to membership on the payment of \$40 worth of books, if they preferred to make payment in that way. Many volumes were thus added.

1848. "The Librarian desires to call the attention of the Committee to a subject on which, it appears to him, some action is required. Hitherto no law

has been enacted, which regulates the admission to the Hospital of practitioners of medicine, and much embarrassment is felt as to the proper course to pursue in the absence of all authority. The advantages derived from hospital attendance are such as to bring here from various parts of the country a number of practitioners, who wish to avail themselves of these benefits. In almost all cases they have never before visited the Hospital, and they now ask the privilege of doing so without charge. They place themselves on a par with ordinary students, enjoy the same opportunities of clinical instruction, and of witnessing operations, and hence should be required, it is conceived, to purchase the usual tickets of admission." A resolution was adopted that "Tickets of admission to the Hospital be granted to graduates (this evidently means to all practitioners of medicine) for 15 days, and that if they desire to continue their visits for a longer period, they be required to purchase the usual tickets."

1854. "Excepting the valuable German work of Bock on Pathological Anatomy, now publishing, the Librarian has not ventured to make any new purchases during the year. He cannot, however, refrain from expressing his deep regret that the growth of the Library, one of the most valuable medical in the country, has been so sadly arrested, owing to want of funds. . . . For about fourteen years no appeal has been made to the Board of Governors for pecuniary aid; the material for the growth and support of the Library has been derived solely from the sale of Hospital Tickets. If the entire amount thus received was appropriated exclusively to its increase and ordinary expenses, the necessity of a direct appeal would probably not again soon arise." An appropriation of \$200 was made by the Governors for the purchase of recent works.

1858. No mention of receipts from Hospital Tickets. Appropriation made of \$300.

1859. Appropriation made of \$500. Library now open two hours daily.

1862. "Many important works have been added to the Library, especially such as relate to military surgery, the construction, management, sanitary regulations, and supplies of military hospitals and of armies, whether in the field or in barracks. As far as practicable these works were made available to the Army Surgeons and to the Sanitary Commission, who could not elsewhere procure them at the time they were most needed."

1869. After the decision of the Board of Governors to abandon the site of the Hospital on lower Broadway, the Library was removed temporarily to Ward 4, South Building, and shortly afterwards to 13 W. 11th street, the property and recent residence of Abram Du Bois, M. D. From this time until 1874 the Library remained there, and was open daily (Sundays excepted) from 1.30 to 3.30 P. M., and on Monday, Wednesday and Friday evenings from 7.30 to 9.30 P. M.

1874. Library removed to the Thorne mansion, 8 W. 16th street, a building, which remains at the time of this report one of the Hospital buildings. The Library hours were extended to from 10 o'clock A. M., to 12 M.; 1.30 P. M. to 5 P. M. "*Resolved*, that hereafter the Hospital Library be used solely for consultation and reference, and not as a circulating library."

"*Resolved*, that the Library Committee hereby recommend to the Board of Governors that the By-Laws affecting the Library be so amended as to authorize the *free* admission to the Library for consultation of all respectable persons known to, or having a proper introduction to, the Librarian, and that until the By-Laws shall be so amended the Library be declared free, subject to such rules and regulations as the Library Committee may establish." This resolution apparently shows that Hospital Tickets had been issued up to this time. The Librarian's salary was raised to \$1,500 per annum, in acknowledgment of his rare fitness for his position and valuable services to the Library. The appropriations in this year for the purchase of new works, and for the usual and extra binding, amounted to \$1,246.95. In 1875 \$1,575 were appropriated, and afterwards the annual appropriations were between \$1,500 and \$2,000.

1875. The Librarian mentions the growing importance of the Library, and states that during the year 312 practitioners have availed themselves of its privileges. The Librarian was authorized by the Board of Governors to purchase "the standard treatises on the Philosophy and Practice of Homœopathy."

1877. On March 16th, the new Hospital Building, 7 W. 15th street, was opened for the admission of patients.

"*Resolved*, that the hours for opening and closing the Library be from 10 A. M. to 5 P. M. continuously, and not opening in the evening as heretofore."

1879. The Librarian calls attention to the necessity of having the Library placed in a building less exposed to fire.

1882. The Librarian reports: "Our shelves now contain the most elaborate treatises on Anatomy, Surgery, Practice of Medicine, Medical Jurisprudence, Physiology, Pathology, Chemistry, etc., with a large collection of the most costly illustrated works, which, it is believed, cannot be found in any other of our medical libraries. The works on Medical Jurisprudence — and certain others also — have been made available in several important legal cases in distant parts of our country, the Librarian having assumed the responsibility of loaning, for a brief period and with ample security against loss or damage, such works not procurable elsewhere. These were duly returned with the grateful thanks of the borrowers."

In an elaborate account of the Public Libraries of the United States published by the Hon. JOHN EATON, Commissioner of Education, in 1876, the

Library of the New York Hospital is mentioned as "the largest and most valuable medical library in the City of New York, and one of the most valuable of its size in the United States."

1884. The number of physicians consulting the Library during this year was over 2,300.

1887. The Library Committee reports "the urgent need of more space for the Library. Books are now so crowded that it is impossible to properly classify and arrange them for convenient reference."

1891. On January 1, JOHN L. VANDERVOORT, who had been Librarian since 1837, was retired by order of the Board of Governors. He died July 19, 1891. A resolution was passed by the Board of Governors, expressing their appreciation of his character, and of the fidelity with which, for upwards of fifty years, he discharged his important duty as Librarian of this Hospital. A likeness of him, from a photograph taken shortly before his death, will be found on this page.

JOHN L. VANDERVOORT, M.D.

February 4th, FRANK P. FOSTER, M. D., was appointed Librarian. In August the Library was removed to the second floor of the new building erected as a Home for the Nurses, where ample room had been provided for the

growth of the Library. For the first time the books were now arranged according to subjects, a card catalogue was made, and the bound volumes of journals were placed according to title alphabetically.

1897. FRANK P. FOSTER, M. D., Librarian, resigned May 31st. From this time until the Library was removed to the New York Academy of Medicine in 1898, the Library was in charge of JOSEPH H. VANDERVOORT, Assistant Librarian.

1898. March 1st. An offer from the New York Academy of Medicine to take the Library as an entirety, and to place it in its Library with a memorial tablet acknowledging the donation, was accepted by the Board of Governors under the advice of the Law Committee; and the Committee on Hospital Building and Library was authorized to make arrangements for the removal of the books, and of such fixtures and appurtenances of the Library as were no longer needed. Soon afterwards the Library was transferred to the New York Academy of Medicine, 17 W. 43d street, where a tablet was placed in the Reading Room with the following inscription: "The Library of the Society of the New York Hospital, founded 1796, consisting of 23,000 volumes, was presented to the New York Academy of Medicine by the Board of Governors of the Society, 1898."

GROWTH OF THE LIBRARY.

1800	313	Volumes.
1830	3,540	"
1840	4,356	"
1850	5,577	"
1860	6,685	"
1870	8,431	"
1880	12,767	"
1890	18,609	"
1898	23,511	"

DONATIONS AND BEQUESTS OF BOOKS.

The accessions to the Library from these sources were large, and nearly equalled those acquired by purchase. Only the more important ones are here mentioned.

- 1842. Seventy volumes of ancient and rare works from the library of the late Samuel L. Mitchell, M. D.,
- 1849. Twenty-two volumes, of valuable and rare medical works, presented by the Minister of Public Instruction in France.
- 1856. Sixteen volumes of French medical works, presented by Robert L. Kennedy, Esq., Governor.

- 1860. Seventy-three volumes from the library of the late Robert Ray, Jr., M. D.
- 1864. Four hundred and eighty-one volumes bequeathed by the late John Watson, M. D. This rich and rare collection contains works in the Arabic, Greek, Latin, German, French, Spanish and Italian languages, and many printed in black letter, upon the early history of medicine, its principles and practice, and especially upon the anatomy of the human frame.
- 1868. Two hundred and eleven volumes of French medical works, presented by John David Wolfe, Esq., Governor. One hundred and five volumes, presented by J. B. Johnston, Esq., Governor.
- 1870. Publications of "The New Sydenham Society," presented by J. B. Johnston, Esq., Governor.
- 1888. Seven hundred and thirty-four volumes, bequeathed by the late Thomas T. Sabine, M. D.
- 1889. About one hundred and fifty volumes, bequeathed by the late John C. Dalton, M. D.
- 1893. Two hundred and eleven volumes on Otology, presented by D. B. St. John Roosa, M. D.
- 1894. Seventeen hundred and seventy-five volumes, the library of the late Alonzo Clark, M. D., presented by his heirs.
- 1891-1897. One thousand volumes, (estimated) presented by Frank P. Foster, M. D., Librarian.

The total appropriations made by the Board of Governors for the purchase of books amount to \$44,247.60. If to this be added the cost value of the donations and bequests of books, the total cost of the Library, at the time when it was presented to the New York Academy of Medicine, may be estimated at not less than \$100,000.

A. BRAYTON BALL.

PORTRAITS

ATTENDING PHYSICIANS AND SURGEONS,

1774-1898.

The following collection of portraits of the Attending Physicians and Surgeons of the HOSPITAL, BLOOMINGDALE ASYLUM, and HOUSE OF RELIEF, dating from the appointment of its first physician in 1774 to the present time, is complete with the exception of thirteen, which the Committee have been unable to obtain, and whose names appear below. These portraits are reproduced either from paintings or prints belonging to the HOSPITAL, or from pictures belonging to descendants, and courteously loaned by them to the Society.

PETER MIDDLETON, M.D., Physician.....	1774-1791	JAMES S. STRINGHAM, M.D., Physician....	1807-1817
MALACHI TREAT, M.D., "	1774-1791	JOHN C. OSBORNE, M.D., "	1809-1817
JOHN CHARLTON, M.D., "	1791-1792	BENJAMIN DEWITT M.D., "	1809-1810
THOMAS JONES, M.D., "	1791-1792	WILLIAM HANDY, M.D., { Physician } ..	1817-1819
RICHARD S. KISSAM, M.D., Surgeon	1792-1822	{ to Asylum } ..	
SAMUEL NICHOLL, M.D., Physician	1792-1796	PETER C. TAPPAN, M.D., Physician	1817-1824
WILLIAM P. SMITH, M.D., "	1792-1796	R. K. HOFFMAN, M.D., Surgeon	1836-1860

SAMUEL BARD, M.D.
Attending Physician,
1774-1797.

JOHN JONES, M.D.
Attending Physician,
1774-1791.

RICHARD BAYLEY, M.D.,
Attending Surgeon,
1792-1801.

JAMES TILLARY, M.D.,
Attending Surgeon,
1792-1792.

WRIGHT POST, M.D.,
Attending Surgeon,
1792-1821.

J. R. B. RODGERS, M.D.,
Attending Physician,
1794-1807.

SAMUEL BORROWE, M.D.,
Attending Surgeon,
1795-1817.

VALENTINE SEAMAN, M.D.,
Attending Surgeon,
1796-1817.

ELIHU H. SMITH, M.D.,
Attending Physician,
1796-1798.

SAMUEL L. MITCHELL, M.D.,
Attending Physician,
1796-1817.

DAVID HOSACK, M.D.,
Attending Physician,
1797-1806 : 1807-1826

WILLIAM HAMERSLEY, M.D.,
Attending Physician,
1798-1817.

EDWARD MILLER, M.D.,
Attending Physician,
1806-1812

ARCHIBALD BRUCE, M.D.,
Physician to Lunatic Asylum,
1808-1817

VALENTINE MOTT, M.D.,
Attending Surgeon,
1817-1837.

ALEXANDER H. STEVENS, M.D.,
Attending Surgeon,
1817-1839.

JOHN WATTS, M.D.,
Attending Physician,
1817-1829.

JOHN NEILSON, M.D.
Attending Physician (Hospital),
1817-1819.
Attending Physician to Lunatic Asylum,
1819-1829.

THOMAS COCK, M.D.,
Attending Physician,
1819-1834.

JOHN C. CHEESMAN, M.D.,
Attending Surgeon,
1821-1856.

J. KEARNEY RODGERS, M.D.,
Attending Surgeon,
1822-1851

SAMUEL W. MOORE, M.D.,
Attending Physician,
1824-1828.

STEPHEN BROWN, M.D.,
Attending Physician,
1826-1832.

FRANCIS U. JOHNSTON, M.D.,
Attending Physician,
1828-1848.

TO THE LEGISLATURE
OF THE
STATE OF NEW YORK.

The Governors of the Society of the New York Hospital respectfully present their Annual Report of the state of the Institutions under their charge for the year 1899, as required by law.

ANNUAL REPORT

OF THE

Governors of the Society of the New York Hospital for the year 1899.

In conformity with the provisions of its Charter granted by George Third of England, June 13, 1771, the Governors of the Society of the New York Hospital present herewith the Annual Report of the several Institutions under their control and management, located as follows:

The Hospital at Fifteenth and Sixteenth Streets, between Fifth and Sixth Avenues; the House of Relief at 67 and 69 Hudson Street, for the treatment of emergency cases; and the Department for the treatment of mental diseases, known as Bloomingdale, located at White Plains, Westchester County.

59,288 patients received medical or surgical treatment in all departments for the year 1899, an increase of 4,409 patients over the previous year. The grand total treated since the commencement of Hospital work, January 3rd, 1791, is 903,922. The proportion of patients in the Wards of the several Institutions receiving absolutely free treatment was sixty two per cent., and a large proportion of the remainder paid less than the actual cost of treatment.

In the appendix will be found the Report of the Treasurer showing the receipts and disbursements of the Society from all sources and on all accounts for the year 1899.

At the Hospital in West Fifteenth Street the total number of patients treated in all its departments was 17,970, this does not include 245 cases treated by the Ambulance Surgeon but not entered on the Hospital records. In the wards 6,060 patients received medical or surgical care and the average daily census was 173, the largest daily number of patients was 203, the smallest, 139. The average number of days of treatment per patient was 10.

The total days of Hospital treatment aggregated 63,048, of which number, seventy-five per cent., were treated absolutely free.

In the Out Patient Department the number of patients treated in both the afternoon and evening classes, was 11,910, while the total number of visits of these patients aggregated 51,555; the number of prescriptions compounded was 38,591.

At the House of Relief the total number of patients treated was 40,884, there were also treated by the Ambulance Surgeon 2,088 cases but not entered on the Hospital records.

2,089 patients received care and treatment in its wards, divided in the proportion, of 272 patients in General Wards to 1,817 in the Reception Wards, with total days of Hospital care aggregating 12,175.

In the Out Patient Department 38,795 cases were examined and treated, while the total number of visits of these patients was 102,647, and 45,086 prescriptions were compounded.

The treatment at this Institution is entirely free and was maintained at a cost of \$38,975.33, for the year 1899.

In the Ambulance Department, the number of calls responded to by the Hospital was 2,028 and by the House of Relief, 3,510, the average calls per day numbering 5 at the Hospital, and 10 at the House of Relief.

Reference is made to the appended tables prepared under the direction of the Committee on Statistics of the Medical Board, giving results of treatment of both medical and surgical cases at the Hospital and House of Relief.

From the Annual Report of Dr. SAMUEL B. LYON, Medical Superintendent of Bloomingdale, to the Board of Governors, it appears that 434 patients received treatment during 1899, of which 205 were men and 229 women. Of the total number of cases discharged during the year, viz.: 93, 24 recovered, 35 were improved, 16 were not improved, and 18 died.

Fifty eight per cent. of the patients treated did not pay the entire cost of their support.

It is interesting to add that the total admissions at Bloomingdale from the date of its opening in 1821 to 1899, inclusive, is 10,038.

The building operations on the Society's property at West 15th and 16th Streets, referred to in previous reports, are not yet completed, though progressing. A detailed report will be made when completed.

SHEPPARD GANDY,
President.

HENRY W. CRANE,
Secretary.

NEW YORK, February 6th, 1900.

The Society of the New York Hospital, Bloomingdale, White Plains.

THE ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT.

To the Governors of THE NEW YORK HOSPITAL.

GENTLEMEN:—In compliance with a By-law of your Honorable Board, the following report of the operations of this department of the Hospital for the year 1899 is respectfully submitted :

TABLE No. 1.
STATISTICS FOR THE YEAR 1899.

	MEN.	WOMEN.	TOTAL.
There were under treatment, Jan. 1st, 1899....	140	186	326
" admitted in the year.....	65	43	108
" treated " " 	205	229	434
The discharges were : Recovered.....	8	16	24
Improved.....	22	13	35
Unimproved	9	7	16
By death.....	11	7	18
Total.....	50	43	93
There were under treatment, Dec. 31st, 1899	155	186	341
The average number under treatment was.....	147	184	331
The lowest number was: Men, in January and April....	137
" " " Women, in September.....	..	174	..
" total was, in January.....	318
The highest number was: Men, in September.....	154
" " " Women, in May	191	..
" total was, in November	337

PERSONS AND CASES.

There were two less persons than cases treated, there being two men who were discharged, and readmitted in the course of the year.

ADMISSIONS.

There were 108 patients, 65 men and 43 women, admitted during the year. Ten patients, 7 men and 3 women had been discharged from the Institution prior to January 1st, 1899, 1 woman twice and 2 women once; 2 men twice, and 5 men once. Of those readmitted for the first time, 2 men and 1 woman had been discharged as recovered, and 3 men and 1 woman as improved; 1 woman had been discharged twice as recovered, and 1 man had been twice discharged recovered, and 1 man twice as improved.

Ninety of the admissions, 55 men and 35 women were first attacks, 70 of which, 44 men and 26 women were admitted first to Bloomingdale. Deducting from the whole number of admissions 7 cases that had been admitted in previous years, and 70 admissions in first attacks, leaves 31 cases that have been either treated at home or some other institution previous to admission here.

Fifty-four patients were admitted 3 months or less after the first symptoms of mental disease were noticed by their friends; 8 between 3 and 6 months; 7 between 6 and 12 months, and 39 more than a year.

The following table shows the form of disease existing and the results obtained in the 108 cases admitted during the year.

TABLE 2,
ADMISSIONS DURING THE YEAR 1899.

FORM OF DISEASE.	PATIENTS ADMITTED.			RESULT IN THOSE DISCHARGED.								CONDITION OF THOSE REMAIN- ING.

Of the cases of Acute Mania, 3 men were alcoholic.

Of the cases of Acute Melancholia, 2 men were drug habitues. These cases were distinctly insane.

The 1 case "not insane" was voluntary, and was not legally committed ; she was a drug habitue, and was discharged recovered.

By reference to Table No. 2, it will be seen that of the 108 admissions during the year there were 29 cases of General Paresis, and among the remainder there were 27 cases in which their insanity had existed for more than a year. This leaves only 52 recent cases, which includes many degenerative and unfavorable types, which are called acute, because of recent manifestation of active mental symptoms. It is from recent cases that we obtain the greatest number of recoveries, and when the number of hopeful cases admitted is decreased, there is naturally a falling off in the percentage of recoveries.

DISCHARGES.

The number of recoveries was 24, 8 men and 16 women. They were 26 per cent. of all discharges, including deaths, 16 per cent. of the men who were discharged or died, and 37 per cent. of the women who were discharged or died.

Sixteen patients, 5 men and 11 women, recovered from the first attack, 6 patients, 2 men and 4 women from the second, 1 woman from the third, and 1 man from the fifth attack.

In the cases that recovered, the average duration of the disease from invasion to recovery was 10 months and 26 days; of the men, 10 months and

11 days, and of the women, 11 months and 4 days. The average duration of treatment was 4 months and 28 days; of the men 4 months and 6 days, and of the women, 5 months and 10 days. The longest period of treatment was 9 months and 8 days of 1 man, and 1 year and 2 months of 1 woman; the shortest was 1 month and 25 days of 1 man and 2 months and 16 days of 1 woman.

The disease was reported to have existed before admission an average of 5 months and 27 days; in the men, 6 months and 4 days, and in the women 5 months and 24 days.

Fifteen patients, 4 men and 11 women, recovered from mania, and 9, 4 men and 5 women, from melancholia.

One drug habitue, a voluntary case, was discharged as recovered.

Of the 35 cases, 22 men and 13 women who were discharged as improved, 4 men and 3 women seemed likely at the time of their discharge to recover if continued under treatment.

Of the 16 patients, 9 men and 13 women, who were discharged unimproved, 1 woman seemed likely to recover if continued under treatment.

DEATHS.

The number of deaths during the year was 18, 11 men and 7 women.

Six men died of general paresis.

Of the remaining 12 cases, 1 man died of acute melancholia and pneumonia, and 1 woman of acute melancholia and cardiac valvular disease of heart.

One case of acute mania, a woman, died of exhaustion and septic infection following abortion.

One case of chronic mania, a woman, died of pneumonia.

One case of paranoia, a woman, died of septic peritonitis.

One case of chronic melancholia, a woman, died of general sepsis following purulent arthritis of shoulder joint.

Six cases of terminal dementia died, 2 men of pneumonia, 1 man of organic heart disease, 1 man of cardiac valvular disease, 1 woman of senility and chronic diarrhoea, and 1 woman of pneumonia.

Among the above 18 deaths, there were only 3 acute cases, the physical and mental disease in the remaining 15 cases having existed for periods ranging from 1 to 34 years.

The deaths in the acute cases occurred after they had been under treatment for periods ranging from 1 to 3 weeks.

Among the chronic cases, 1 patient had been under treatment for 34 years and 1 month, 1 for 17 years and 4 months, and 1 for 16 years and 6 months, and the remainder for periods less than 10 years.

The average time they spent in the Institution was 4 years, 8 months and 15 days.

In the 6 cases of general paresis, the longest period of their hospital treatment was 1 year, 7 months and 7 days; the next longest, 1 year and 3 months, and the remaining cases for shorter periods.

The average time they were under treatment was 9 months and 6 days. The longest time from marked manifestation of disease prior to admission was said to have been 1 year; the shortest was 4 weeks; the average was 4 months and 1 day.

The longest period from first manifestation to death was 1 year, 9 months and 7 days; the shortest was 5 weeks.

The average duration of the disease from first manifestation to death was said to have been 1 year, 1 month and 7 days.

This is less than half the duration of disease in 8 cases of paresis which died last year.

The total number of deaths was at the rate of 4.14 per cent. of all the cases treated; in the men 5.26 per cent., and in the women 3.05 per cent.

OPHTHALMOSCOPIC.

A careful intraocular examination was made in 196 cases comprising the following forms of insanity :

Mania, acute..	13
" recurrent	8
Melancholia, acute	20
" chronic	9
Dementia, senile	7
" terminal	30
" post-apoplectic	1
" primary	1
" alcoholic	3
Primary delusional insanity	41
General Paresis ...	57
Epilepsy	5
Circular insanity	1
Total...	196

The object of these examinations was to correct as far as possible any trouble which might exist, and to observe what relation if any existed between ophthalmic disease and mental disorder. These examinations were made in collaboration with Dr. R. G. REESE, of the New York Eye and Ear Infirmary, and below is a table showing result :

* In the 57 cases of General Paresis examined above, 55 showed insufficiency of the Internal Recti muscles.

Fifty seven cases of General Paresis were examined. No opthalmic disease or symptom was observed which is pathognomonic of Paresis in the early stages, but it is significant to note that there was in every case a high degree of insufficiency of the internal recti, while the other muscles of the eye were normal. In other forms of insanity this muscular imbalance was not apparent.

In cases where errors of refraction were found, the correcting lenses were ordered, and the patients were not only relieved of eye strain and headaches,

but were able to read, and in occupying themselves, were made more comfortable.

The cases showing changes due to nephritis, syphilis and other diseases, were given proper treatment, and in many cases with marked benefit, and amelioration of symptoms. One of the cases here tabulated as paralysis of third nerve, was cured, and the case of acute glaucoma was operated upon, iridectomy upward, with complete recovery.

It is our rule to make a careful ocular examination as soon as possible after patients are admitted, and none of the cases here reported were especially selected as eye patients, although the number of intra-ocular affections found was large.

REPORT OF BLOOD EXAMINATIONS OF 35 CASES OF PARESIS, AND A FEW CASES OF OTHER FORMS OF INSANITY.

By Dr. R. J. E. SCOTT.

TABLE No. 8.

A differential count of the leucocytes was made, in such cases as were selected, with the following results:

Case Number	Patients' Number	Sex.	Stage of G. P.	Differential count of W. B. C.				
				Small mononuclear.	Large mononuclear.	Transitional.	Polynuclear.	Eosinophile.
1	1	M.	III	15	6	5	74	0
2	2	M.	III	18	6	4	71	1
3	3	M.	II	20	4	3	70	3
4	4	M.	III	15	7	2	74	2
5	11	M.	III	14	8	1	76	1
6	12	M.	III	13	7	2	77	1
7	13	M.	III	16	6	6	70	2
8	14	M.	II	15	10	1	73	1
9	21	M.	III	11	9	3	74	3
10	22	M.	III	15	5	4	73	3
11	23	M.	III	13	4	5	75	3
12	24	M.	III	8	2	0	88	2
13	31	M.	II	17	6	3	71	3
14	32	M.	III	16	7	4	70	3
15	33	M.	II	16	6	5	70	3
16	35	M.	III	14	6	2	76	2
17	41	M.	I	13	3	5	77	2
18	42	M.	II	12	8	3	75	2
19	44	M.	II	17	12	7	64	0
20	45	M.	II	22	20	3	52	3
21	51	M.	II	11	5	1	83	0
22	52	M.	III	14	9	4	71	2
23	53	M.	II	17	8	3	71	1
24	54	M.	II	12	8	3	74	3
25	55	M.	II	13	10	5	69	3
26	61	M.	II	21	9	3	64	3
27	62	M.	II	18	10	3	66	3
28	63	M.	II	22	9	2	65	2
29	64	M.	II	16	10	4	68	2
30	65	M.	II	20	9	2	66	3
31	71	M.	II	19	8	3	67	3
32	72	M.	II	17	6	3	71	3
33	73	M.	II	17	9	4	68	2
34	74	M.	II	21	6	4	66	3
35	75	M.	II	19	13	4	62	2

In the above series of 35 cases, it will be observed that :

	Small mononu- clear.	Large mononu- clear.	Transi- tional.	Polynu- clear.	Eosino- phile.
(1) The highest figures were	22	20	7	88	3
(2) " lowest " "	8	2	0	52	0
(3) " average " "	15.91	7.74	3.31	70.88	2.14

In every case 500 or more leucocytes were counted.

Without attempting to draw any definite inferences from the above figures, it is noticeable that there is a marked increase on the part of the Large Mononuclear and Transitionals at the expense of the Small Mononuclear. This is the more apparent when we remember that the normal numbers in health as given by different observers and text book writers are :

Small Mononuclear	20-30
Large " }	6
Transitional " }	
Polynuclear.....	60-75
Eosinophile.....	2

In the case of those not suffering from general paresis, a differential count showed :

S.	L.	T.	P.	E.
18	2	2	76	2
21	3	2	72	2
18	5	2	72	3

In addition to the above, the following examinations were made :

1 of Blood for Plasmodium Malariae,
1 count of Red and White Corpuscles,
1 of Urethral Discharge for Gonococcus,
4 of Sputum for Tubercle Bacillus.

R. J. E. SCOTT, M. D.

GENERAL REMARKS.

There were 17 more admissions this year than last.

The average number of patients in the Institution was 331, 7 more than the average of the preceding year.

The number of weeks' board and treatment furnished for patients was 17,224 $\frac{3}{7}$, an excess over last year of 278 $\frac{5}{7}$ weeks. The expenditure per average patient was \$10.96 per week, not including the reimbursement to the Institution by the friends of patients of the wages paid for private attendants, a decrease of the cost per capita of 24 cents.

Sixty women were beneficiaries of the JOHN C. GREEN memorial fund during the year 1899. The amount of income received from that fund and expended for these women in 1899 was \$6,568.96, a decrease from the income of that fund for the year 1898 of \$177.39. The total charitable expenditures during 1899 in caring for and treating patients (preferably acute and presumably hopeful cases) was \$45,927.64. Two hundred and sixty-three individuals shared in this charitable assistance, some being entirely and others partially supported. The sum of \$39,356.68 was expended for this purpose from the earnings of Bloomingdale during the year 1899. Nearly 12 per cent. of those treated contributed nothing whatever to their support; 58 per cent. of the patients paid sums varying from nothing to the bare cost of their care. Only 42 per cent. paid a rate which secured a profit to the Institution, which receives no public, State or City aid, is self-supporting, and devotes all excess of its receipts over its expenses to the improvement of the Institution and the support of its beneficiaries. The total support, and the partial assistance rendered to patients unable to pay for their entire cost to the hospital, was equivalent to maintaining 80 free beds.

It is again a matter for congratulation that during the past year no serious accident or calamity, successful elopement or attempts at suicide have occurred. Each year we endeavor to add something to the resources of patients deprived of their liberty, but still capable of enjoyment, but particularly capable of feeling the ennui of the situation.

There have been no changes in the staff during the year, and all have discharged their duties faithfully and intelligently, and with an evidence of real interest in their work.

IMPROVEMENTS.

An artesian well in regular working order has added 20,000 gallons to the daily supply of water of a very pure quality.

We have extended the artificial walks through the patients grounds nearly 9,000 sq. ft., making several distinct circuits for the exercise of patients, so that cases of a different order and capacity of enjoyment or of an irritable or troublesome character, can be exercised in different portions of the grounds separated from those whom they would be likely to disturb or be disturbed by.

TRAINING SCHOOL.

Ten women and 5 men received certificates of having pursued the studies laid down in the training school for attendants, and attained a reasonable degree of efficiency. This was the third regular examination and the graduates of the School of instruction for attendants now number a total of 32.

*CONVALESCENT HOME FOR PATIENTS FROM
THE NEW YORK HOSPITAL.*

The Convalescent home for patients from the New York Hospital accommodated during the year 62 convalescent men, and 1,524 days board were furnished them.

During the last building season, a commodious and comfortable wooden building of the summer home type was constructed for the use of convalescent women patients from the wards for general sickness and surgical cases at the New York Hospital. The building was completed late in the season, and as such patients are not likely to come to the country in the winter, it was not opened, but the preparations are now making to receive in it some 15 to 20 convalescent women, and perhaps provide a temporary rest for some overworked nurses during the coming summer.

SAMUEL B. LYON,
Medical Superintendent.

THE SOCIETY OF THE NEW YORK HOSPITAL
BLOOMINGDALE, WHITE PLAINS.

TREASURER'S REPORT.

The receipts and payments of the Society of
on all accounts, for the

Receipts :

Balance cash on hand January 1st, 1899	\$4,142 52
On account of board and treatment of patients in the several departments of the service	283,965 07
One years' income from the JOHN C. GREEN Memorial Fund	6,568 96
One year's income from the WM. H. FOGG Memorial Fund	900 00
Rents and ground rents	167,173 41
Temporary Loans for building purposes	393,000 00
On account Legacy Estate CHARLES BATHGATE BECK....	40,000 00
On account Legacy Estate MARY G. JOHNS, with interest	532 83
Sale of Real Estate Twelfth Ward, straightening lines, etc..	4,000 00
Principal of Mortgage paid off and temporary deposits in Trust Co. Investment account JOHN C. GREEN Memorial Fund	10,500 00
Donations and Membership subscriptions	277 00

\$911,059 79

The undersigned, a Committee appointed in obedience to the By-Laws to

NEW YORK, February 2d, 1900.

TREASURER'S REPORT.

the New York Hospital from all sources and year 1899, are as follows:

Payments :

On account of support of patients in its several departments	\$439,942 09
One year's income from the JOHN C. GREEN Memorial Fund	6,568 96
Expenses of the Pathological Department	3,280 28
On account of construction of new buildings on West 15th and 16th Streets	314,940 08
On account furnishings, new floor in Nurses' Home	76 38
Constructing new Convalescent Home for Women at Bloomingdale	5,280 80
Principal Mortgage, 23 West 15th Street, paid off.	25,000 00
Loans on Mortgage and temporary deposits in Trust Co. Investment account JOHN C. GREEN Memorial Fund.	10,500 00
Legal Services, Insurance, etc.	5,370 54
Interest on Temporary Loans, Hospital Bonds, & Mortgage.	5,324 31
City Taxes and Assessments.	56,815 43
Balance cash on hand December 30, 1899.	37,960 92

The excess of expenditures over receipts on account of support of patients in the several departments of the service for the year 1899 was \$155,977.02.

\$911,059 79

GOVERNORS

OF

The Society of the New York Hospital.

The following is a list of the names of Governors from the commencement of the institution to the first of January, 1900, with the date of their respective elections, and the length of time they continued in office :

GOVERNORS.	Elect- ed.	Re- signed.	Served the Institution.	
A.				
Charles Ward Apthorp -----	1770	1784	14 years	Died in office, 1819.
William Axtell -----	1770	1784	14 years	
John Alsop -----	1784	1788	4 years	
Gilbert Aspinwall -----	1799	1809	} 15 years	
Gilbert Aspinwall -----	1811	1812		
Gilbert Aspinwall -----	1815			
John Atkinson -----	1800	1809	9 years	
John Aspinwall -----	1814	1817	3 years	
John Adams -----	1818	1854	36 years	
Stephen Allen -----	1823	1830	} 24 years	Died in office, 1852.
Stephen Allen -----	1835			
Augustin Averill -----	1848	1857	9 years	
John Jacob Astor -----	1860	1864	4 years	
George W. Abbe -----	1877		2 years	Died in office, 1879.
William W. Astor -----	1879	1882	3 years	
B.				
Gerardus William Beekman -----	1770	1777	7 years	
George Bowne -----	1770	1784	} 26 years	
George Bowne -----	1785	1797		
William Bayard -----	1777	1784	} 9 years	
William Bayard -----	1800	1802		
Robert Bowne -----	1784		34 years	Died in office, 1818.
Aaron Burr -----	1784	1792	8 years	
James Beekman -----	1785	1787	2 years	
Theophylact Bache -----	1785	1797	12 years	
Thomas Buchanan -----	1785	1800	15 years	
Francis Basset -----	1785	1787	2 years	
William Backhouse -----	1787	1792	5 years	
Nicholas Bayard -----	1794	1798	4 years	
John Barrow -----	1795	1807	12 years	
Samuel Bowne -----	1796	1797	1 year	
Walter Bowne -----	1800	1805	5 years	
Dr. Samuel Bard -----	1801	1802	1 year	
Rev. Abraham Beach -----	1801	1806	5 years	
Thomas Buckley -----	1802	1842	40 years	
John Bogert -----	1804	1817	13 years	
John L. Bowne -----	1810	1815	5 years	
Abraham Barker -----	1813	1816	3 years	
Robert H. Bowne -----	1815	1827	12 years	
William Bayard, Jr. -----	1818	1823	5 years	

LIST OF GOVERNORS.

GOVERNORS.	Elected.	Re-signed.	Served the Institution.	
John L. Buckley-----	1842	1855	13 years	
James W. Beckman-----	1850	1854	} 23 years	Died in office, 1877.
James W. Beckman-----	1858			
Nathaniel P. Bailey-----	1858		33 years	Died in office, 1891.
James M. Brown-----	1861		29 years	Died in office, 1890.
Theodore B. Brouson-----	1864	1868	4 years	
James H. Banker-----	1869	1876	8 years	
James William Beckman-----	1884		16 years	Continues in office.
Cornelius N. Bliss-----	1885	1899	14 years	
George S. Bowdoin-----	1887		13 years	Continues in office.
Waldron Post Brown-----	1887		13 years	Continues in office.
Thomas H. Barber-----	1898		2 year	Continues in office.
C.				
David Clarkson-----	1770	1777	7 years	
Matthew Clarkson-----	1792	1822	30 years	
John Campbell-----	1794	1797	3 years	
John B. Coles-----	1796	1798	2 years	
Isaac Collins-----	1800	1808	8 years	
John T. Champlin-----	1801	1811	10 years	
John G. Coster-----	1801	1803	2 years	
Samuel Corp-----	1801	1802	1 year	
Richard Cunningham-----	1812	1814	2 years	
Cadwallader D. Colden-----	1812	1827	15 years	
Nathan Comstock-----	1818	1823	5 years	
Duncan P. Campbell-----	1818	1827	9 years	
John Clark, Jr-----	1819	1834	15 years

TO THE LEGISLATURE
OF THE
STATE OF NEW YORK.

The Governors of the Society of the New York Hospital respectfully present their Annual Report of the state of the Institutions under their charge for the year 1900, as required by law.

ANNUAL REPORT

OF THE

Governors of the Society of the New York Hospital for the year 1900.

In conformity with the provisions of its Charter, granted by George Third of England, June 13, 1771, the Governors of the Society of the New York Hospital present their Annual Report of the several institutions under their control and management, located as follows:

The Hospital at Fifteenth and Sixteenth Streets, between Fifth and Sixth Avenues; the House of Relief, at 67 and 69 Hudson Street; and the Department for the treatment of mental diseases, known as Bloomingdale, located at White Plains, Westchester County.

62,565 patients received medical or surgical treatment in all departments for the year 1900, an increase of 3,277 patients over the previous year. The grand total treated since the commencement of Hospital work, January 3d, 1791, is 966,487.

The proportion of patients in the wards of the several Institutions receiving absolutely free treatment was sixty-one per cent., and a large proportion paid less than the actual cost of treatment.

As an illustration of the general growth of the work of the Society, the following statistics are presented, showing the number of patients treated in all departments annually for the past ten years:

1891.....	35,916	1896.....	45,227
1892.....	38,118	1897.....	49,193
1893.....	39,377	1898.....	54,879
1894.....	39,012	1899.....	59,288
1895.....	39,318	1900.....	62,565

The Treasurer's Report, showing the receipts and disbursements of the Society from all sources and on all accounts for the year 1900 is also presented.

At the Hospital in West Fifteenth and Sixteenth Streets, the total number of patients treated in all its departments was 17,775; this does not include 376 cases treated by the Ambulance Surgeons, but not admitted as patients.

In the Wards 6,225 patients received medical or surgical care, divided in the proportion of 4,611 surgical to 1,614 medical. The total number of deaths was 329. The average daily census was 173, the largest daily number of patients was 202, the smallest 137. The average number of days of treatment per patient was 10. The total days of Hospital treatment aggregated 63,269, of which number seventy-two per cent. were treated free.

In the Out Patient Department the number of patients examined and treated in the afternoon classes was 10,313, and in the evening classes 1,237; the total number of visits of these patients was 49,229, and the number of prescriptions compounded 36,129.

The House of Relief treated 44,351 patients during the year 1900; there were also treated by the Ambulance Surgeons 1,944 persons who were not admitted as patients.

2,139 patients received care and treatment in its wards, divided in the proportion of 247 patients in the General Wards to 2,139 in the Reception Wards. The total days of Hospital care aggregated 14,206.

In the Out Patient department the total number of patients treated was 41,965; the number of visits of these patients aggregated 110,597, and the prescriptions compounded 49,512.

The service at the House of Relief is free in all departments, and was maintained at a cost to the Society of \$43,080.90 for the year 1900.

The number of Ambulance calls at the Hospital for the year 1900 was 2,218, and at the House of Relief 3,623, the average daily number of Ambulance calls at the Hospital being 6, and at the House of Relief 10.

Reference is made to the appended tables prepared under the direction of the Committee on Statistics of the Medical Board, giving results of treatment of both medical and surgical cases at the Hospital and House of Relief.

The total number of patients receiving care at Bloomingdale, White Plains, for the year 1900, as appears from the Annual Report of Dr. Samuel B. Lyon, Medical Superintendent, to the Board of Governors, was 439; 213 men and 226 women, and the grand total treated since Bloomingdale was opened in 1821, is 10,136.

Of the total number of cases discharged during the year, viz., 99: 26 patients recovered; 43 were improved; 8 did not improve and 22 died. The proportion of patients at Bloomingdale receiving absolutely free treatment was 11.2 per cent., and 58.8 per cent. did not pay the entire cost of their support.

The new Private Patients' Building, No. 10 West Sixteenth Street, recently completed, was opened for inspection by the Medical profession and their friends on December 5th last, and on December 10th the first patient was admitted.

The necessity of providing increased accommodations for private patients has long been appreciated by the Governors, and in order to meet this requirement of modern hospital work the new building has been erected.

This building is 10 stories in height, with a frontage of 43 feet and a depth of 90 feet. It is thoroughly fireproof throughout, and embodies all the latest ideas of modern construction and equipment, and accommodates 60 patients. While this building is intended primarily for patients requiring special attention in private rooms, it has also accommodations for the House Staff and Resident Officers of the Hospital, and a large dining-room for pupils of the Training School.

The new building for the residence of the Superintendent, adjoining the Private Patients' Building, is now completed and occupied.

The old Administration Building, known as the "Thorne Mansion," was torn down during the past year, and on its site is being erected a two-story structure, with accommodations for the Governors' and Committee Rooms, Treasurer's Office, and an enlarged Out Patient Department. It is expected that this building, together with alterations in the Main Hospital on Fifteenth Street, will be completed during the ensuing year.

The Governors take pleasure in recording a donation of \$6,600 from the Misses Catharine B. and Maria L. Campbell, for constructing and equipping the new Convalescent Home for Women at Bloomingdale, known as "The Campbell Convalescent Home." They also desire to acknowledge a gift of an electric ambulance from Mr. George C. Taylor.

SHEPPARD GANDY,

President.

HENRY W. CRANE,

Secretary.

NEW YORK, February 5th, 1901.

TREASURER'S REPORT.

The receipts and payments of the Society of
on all accounts, for the

There were under treatment, Dec. 31st, 1900	158	182	340
The average number under treatment was.	156	183	339
The lowest number was: Men, in January.	149
" " " Women, in December.	175	..
" total was, in December.	325
The highest number was: Men, in May.	163
" " " Women, in January	190	..
" total was, in April	346

PERSONS AND CASES.

There were the same number of persons as cases treated, there being none who were discharged and readmitted in the course of the year.

ADMISSIONS.

There were 98 patients, 58 men and 40 women, admitted during the year. Eleven patients, 8 men and 3 women had been discharged from the Institution prior to January 1st, 1900, 3 men twice 5 men once, and 3 women once. Of those readmitted for the first time, 1 man and 2 women had been discharged as recovered, and 4 men and 1 woman as improved; 2 men had been twice discharged recovered, and 1 man twice as improved.

Eighty-three of the admissions, 52 men and 31 women were first attacks, 67 of which, 41 men and 26 women were admitted first to Bloomingdale. Deducting from the whole number of admissions 11 cases that had been admitted in previous years, and 67 admissions in first attacks, leaves 20 cases that have been either treated at home or at some other institution previous to admission here.

Thirty-one patients were admitted 3 months or less after the first symptoms of mental disease were noticed by their friends; 19 between 3 and 6 months; 9 between 6 and 12 months, and 39 more than a year.

The following table shows the form of disease existing and the results obtained in the 98 cases admitted during the year.

TABLE No. 2,

Totals.....	58	40	98	8	7	10	10	2	1	4	0	3	4	18	12	13	6

Of the cases of Sub-acute Mania, 2 men were drug habitues and 1 man was alcoholic.

Of the cases of Sub-acute Melancholia, 1 man was a drug habitue. These cases were distinctly insane.

The 1 case "not insane" was voluntary, and was not legally committed, he was an alcoholic case, and was discharged recovered.

TABLE No. 3,

Pregnancy	0	1	1
Senility	6	2	8
Surgical shock	0	1	1
Sexual excesses and perversion	1	0	1
Unknown	5	3	8
Total	58	40	98

By reference to Table No. 2, it will be seen that of the 98 admissions during the year there were 17 cases of general paresis, and among the remainder there were 31 cases in which their insanity has existed for more than a year. This leaves only 50 recent cases, which includes many degenerative and unfavorable types, which are called acute, because of recent manifestation of active mental symptoms.

DISCHARGES.

The total number of discharges during the year was 99. The number of recoveries was 24, 12 men and 12 women. They were 25 per cent. of all dis-

charges, including deaths, 25 per cent. of the men who were discharged or died, and 25 per cent. of the women who were discharged or died.

Fifteen patients, 8 men and 7 women, recovered from the first attack, 5 patients, 2 men and 3 women from the second, 1 man from the third, 2 women from the fourth, and 1 man from the ninth attack.

In the cases that recovered, the average duration of the disease from invasion to recovery was 16 months and 6 days; of the men, 10 months and 9 days, and of the women 22 months and 5 days. The average duration of treatment was 11 months and 22 days; of the men 5 months and 12 days, and of the women 18 months and 12 days. The longest period of treatment was 9 years 7 months and 28 days, in the case of 1 woman, and 11 months and 1 day in the case of 1 man; the shortest was 2 months and 6 days of 1 man and 9 days of 1 woman.

The disease was reported to have existed before admission an average of 5 months and 3 days; in the men 5 months and 15 days, and in the women 4 months and 20 days.

Eight patients, 6 men and 2 women, recovered from mania, and 14, 5 men and 9 women, from melancholia.

One alcohol habitue, a voluntary case, was discharged as recovered.

Of the 45 cases, 24 men and 21 women who were discharged as improved, 2 men and 6 women seemed likely, at the time of their discharge, to recover if continued under treatment.

Of the 8 patients, 5 men and 3 women, who were discharged unimproved, 2 women seemed likely to recover if continued under treatment.

DEATHS.

The number of deaths during the year was 22, 14 men and 8 women. Eight men and 1 woman died of general paresis. Of the remaining 13 cases, these were all chronic, no deaths having occurred during the year among the acute cases.

Three cases of chronic melancholia died, 1 man of phthisis, 1 woman of phthisis, and 1 woman of valvular disease of the heart. Six cases of terminal dementia died, 1 man of chronic dysentery, 3 men of senility, 1 man of cerebral apoplexy, and 1 woman of senility.

One case of epileptic insanity, a woman, died of pneumonia. Three cases of paranoia died, 1 woman of phthisis, 1 woman of apoplexy, and 1 woman of marasmus.

Among the above 22 deaths, there were no acute cases, the physical and mental disease having existed for periods ranging from 1 to 29 years.

Among the above cases, 1 patient had been under treatment for 29 years and 1 month, 1 for 22 years and 8 months, 1 for 16 years and 9 months, 1 for 10 years and 10 months, and the remainder for periods less than 10 years.

The average time they spent in the Institution was 5 years, 8 months and 6 days.

In the 8 cases of general paresis, the longest period of their hospital treatment was 9 years, 8 months and 18 days, a man; the next longest, 5 years, 1 month and 4 days, a woman; the remaining cases were for shorter periods.

The average time they were under treatment was 2 years, 7 months and 8 days. The longest time from marked manifestation of disease prior to admission was said to have been 2 years; the shortest was 4 weeks; the average was 1 year and 17 days.

The longest period from first manifestation to death was 11 years, 4 months and 18 days, the shortest was 5 weeks.

The average duration of the disease from first manifestation to death was said to have been 3 years and 25 days.

This is more than three times the duration of the disease in 9 cases of general paresis which died last year. The total number of deaths was at the rate of 5.24 per cent. of all the cases treated; in the men 6.57 per cent. and in the women 3.54 per cent.

GENERAL REMARKS.

There were 10 fewer admissions this year than last.

The average number of patients in the institution was 339, 8 more than the average of the preceding year.

The number of weeks' board and treatment furnished for patients was 17,927 $\frac{5}{8}$, an excess over last year of 703 $\frac{3}{4}$ weeks. The average expenditure per patient was \$10.60 per week, not including the reimbursement to the Institution by the friends of patients of the wages paid for private attendants, a decrease of the cost per capita of 36 cents.

Sixty-three women were beneficiaries of the John C. Green memorial fund during the year 1900. The amount of income received from that fund and expended for these women in 1900 was \$7,379.01, an increase from the income of that fund over the year 1899 of \$810.05. The total charitable expenditures during 1900 in caring for and treating patients (preferably acute and presumably hopeful cases) was \$44,509.26. Two hundred and forty-eight individuals

shared in this charitable assistance, some being entirely and others partially supported. The sum of \$37,130.25 was expended for this purpose from the earnings of Bloomingdale during the year 1900; 11.2 per cent. of those treated contributed nothing whatever to their support; 58.8 per cent. of the patients paid sums varying from nothing to the bare cost of their care. Only 44.2 per cent. paid a rate which secured a profit to the Institution, which receives no public, State or City aid, is self-supporting, and devotes all excess of its receipts over its expenses to the improvement of the Institution and the support of its beneficiaries. The total support, and the partial assistance rendered to patients unable to pay for their entire cost to the hospital, was equivalent to maintaining 90 free beds.

There have been no changes in the staff during the year excepting that made by the ending of the term of Dr. Francis W. Shine, on April 30th, 1900, who was succeeded on May 14th, 1900, by Dr. William H. Allee, Jr., and all the officers have discharged their duties faithfully and intelligently, with an evidence of real interest in their work.

It is a pleasure to record the excellent service rendered by the attendant nurses employed by the Institution. Our large proportion of graduates and students in the Training School for attendants in the nursing force has infused a spirit of kindness and enlightened contact with the patients, which has made the occasion of unpleasant episodes rare. The attendants feel kindly toward their charges, and the patients reciprocate by confidence, and friendly, instead of hostile feelings toward the nurses who control them.

TRAINING SCHOOL.

During the past year 2 men and 5 women received certificates of having pursued the studies laid down in the Training School for Attendants, having attained a reasonable degree of efficiency. This was the fourth regular examination, and the graduates of the school of instruction for attendants now number a total of 39.

CONVALESCENT HOME FOR PATIENTS FROM THE NEW YORK HOSPITAL.

The Convalescent Home for men patients from the New York Hospital accommodated during the year 39 convalescent men, and 988 days' board were furnished them.

The Convalescent Home for women from the New York Hospital, for which the Misses Campbell generously repaid the money which it had cost the Hospital, and which now bears the name of the "Campbell Convalescent Home," was opened, and received and cared for 21 women convalescents of the class for which it was designed. This building now constitutes for women an exceedingly useful adjunct of the New York Hospital, which releases beds there for newer patients, and by the change of air and surroundings directly hastens the convalescence and return to useful labor of its occupants. It is hoped, should its continued usefulness be demonstrated, that in a few years a more suitable provision may be made for men in connection with it.

The maintenance of both men and women convalescents was furnished out of the Bloomingdale budget.

SAMUEL B. LYON,

Medical Superintendent.

THE SOCIETY OF THE NEW YORK HOSPITAL,
BLOOMINGDALE, WHITE PLAINS.

GENERAL TABLE OF STATISTICS,

TO THE LEGISLATURE
OF THE
STATE OF NEW YORK.

The Governors of the Society of the New York Hospital respectfully present their Annual Report of the state of the Institutions under their charge for the year 1901, as required by law.

ANNUAL REPORT

OF THE

Governors of the Society of the New York Hospital for the Year 1901.

In conformity with the provisions of its Charter, granted by George Third of England, June 13, 1771, the Governors of the Society of the New York Hospital present their Annual Report of the several Institutions under their control and management, located as follows :

The Hospital at Fifteenth and Sixteenth Streets, between Fifth and Sixth Avenues ; the House of Relief, at 67 and 69 Hudson Street ; and the Department for the treatment of mental diseases, known as Bloomingdale, located at White Plains, Westchester County.

63,080 patients received medical or surgical treatment in all departments for the year 1901, an increase of 515 patients over the previous year. The grand total treated since the commencement of Hospital work, January 3d, 1791, is 1,029,567.

The proportion of patients in the wards of the several Institutions receiving absolutely free treatment was fifty-nine per cent., and a large proportion paid less than the actual cost of treatment.

As an illustration of the general growth of the work of the Society, the following statistics are presented, showing the number of patients treated in all departments annually for the past ten years :

1892,	38,118	1897,	49,193
1893,	39,377	1898,	54,879
1894,	39,012	1899,	59,288
1895,	39,318	1900,	62,565
1896,	45,227	1901,	63,080

The Treasurer's Report, showing the receipts and disbursements of the Society from all sources and on all accounts for the year 1901, is also presented.

At the Hospital in West Fifteenth and Sixteenth Streets, the total number of patients treated in all its departments was 17,421 ; this does not include 548 cases treated by the Ambulance Surgeons, but not admitted as patients.

In the General Wards of the Hospital and Private Patients Building 6,566 patients received medical or surgical care, divided in the proportion of 4,643 surgical to 1,923 medical. In the Private Patients Building 151 were treated in Private Rooms and 157 in Intermediate Wards, or a total of 348 patients. The total number of deaths was 350. The average daily census was 176, the largest daily number of patients was 211, the smallest 136. The average number of days of treatment per patient was 9. The total days of Hospital treatment aggregated 64,298, of which number sixty-seven per cent. were treated free.

In the Out Patient Department the number of patients examined and treated in the afternoon classes was 9,798, and in the evening classes 1,037; the total number of visits of these patients was 49,229, and the number of prescriptions compounded 35,370.

The House of Relief treated 45,228 patients during the year 1901; there were also treated by the Ambulance Surgeons 2,058 persons who were not admitted as patients.

2,849 patients received care and treatment in its wards, divided in the proportion of 571 patients in the General Wards to 2,278 in the Reception Wards. The total days of Hospital care aggregated 14,495.

In the Out Patient Department the total number of patients treated was 42,379; the number of visits of these patients aggregated 121,730, and the prescriptions compounded 50,175.

The service at the House of Relief is free in all departments, and was maintained at a cost to the Society of \$51,562 21 for the year 1901.

The number of ambulance calls at the Hospital for the year 1901 was 2,642, and at the House of Relief 4,097; the average daily number of ambulance calls at the Hospital being 7, and at the House of Relief 11.

Reference is made to the appended tables prepared under the direction of the Committee on Statistics of the Medical Board, giving results of treatment of both medical and surgical cases at the Hospital and House of Relief.

Attention is called to the Report of the Medical Superintendent of Bloomingdale, especially to that portion of it relating to the treatment of convalescent patients.

The total number of patients receiving care at Bloomingdale, White Plains, for the year 1901, as appears from the Annual Report of Dr. SAMUEL B. LYON, Medical Superintendent, to the Board of Governors, was 431; 207 men and 224 women, and the grand total treated since Bloomingdale was opened in 1821 is 10,227.

Of the total number of cases discharged during the year, viz.: 100; 26 patients recovered; 33 were improved; 14 did not improve, and 27 died. The proportion of patients at Bloomingdale receiving absolutely free treatment was 10.8 per cent., and 55.7 per cent. did not pay the entire cost of their support.

During the last year the Hospital erected at White Plains a cottage for the treatment of the same class of female patients now occupying the Brown Villa, and the Board of Governors take pleasure in recording the gift of \$7,500 from HENRY DEXTER, Esq., in full payment for the construction of same, and in recognition of this generous gift the building is known as the Dexter Memorial Cottage. A donation of \$5,000 was also received from Mrs. ANNA P. WAINWRIGHT endowing a bed in perpetuity in the Hospital in memory of her late husband, John Tillotson Wainwright. While gratefully recognizing these generous contributions, it is proper, in this connection, to state that all departments of our Hospital work are in need of just such endowments and gifts.

The new Administration Building, occupying the site of the old Thorne Mansion, No. 8 West 16th Street, to which reference was made in the last report, was completed and occupied in November last. This building is two stories in height; the first story is occupied by the Out Patient Department, with enlarged accommodations for the treatment of its out patients; the second story is used for the Executive Offices of the Society.

The first formal meeting of the Board of Governors in the new Board Room was held November 6, 1901.

Mr. SHEPPARD GANDY having declined a re-election as President of the Hospital, the following minute was unanimously adopted at a meeting of the Governors, held January 8, 1902:

"Mr. GANDY was elected a Governor of the New York Hospital in 1864, and served in that capacity for nearly thirty-eight years. During the whole of this period he was a member of almost all of its important committees, and his services were active and valuable. In 1892 he was elected Vice-President of the Hospital, and held that position for five years, until 1897, when he was elected President, serving five years until his resignation.

"The Board of Governors places on record this brief minute of Mr. Gandy's long, varied and valuable services, which in its opinion deserve its acknowledgment."

CORNELIUS N. BLISS,

President.

HENRY W. CRANE,

Secretary.

NEW YORK, February 4th, 1902.

TREASURER'S REPORT.

The receipts and payments of the Society of
on all accounts, for the

Receipts:

Balance cash on hand January 1st, 1901	\$30,645 59
On account of board and treatment of patients in the several departments of the service	322,307 53

The Society of the New York Hospital, Bloomingdale, White Plains, N. Y.

THE ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT.

To the Governors of THE YORK HOSPITAL.

GENTLEMEN:—In compliance with a By-law of your Honorable Board, the following report of the operations of this Department of the Hospital for the year 1901 is respectfully submitted :

TABLE No. 1.
STATISTICS FOR THE YEAR 1901.

	MEN.	WOMEN.	TOTAL.
There were under treatment, Jan. 1st, 1901....	158	182	340
" admitted in the year.....	49	42	91

The lowest number was: Men, in September and December,	144
" " " Women, in December.....	..	173	..
" total was, in December.....	318
The highest number was: Men, in January	160
" " " Women, in May	185	..
" total was, in January, April and June.....	337

ADMISSIONS.

There were 91 patients, 49 men and 42 women, admitted during the year. Thirteen patients, 10 men and 3 women, had been discharged from the Institution prior to January 1, 1901; 3 men twice, 7 men once, 1 woman twice and 2 women once. Of those re-admitted for the first time, 3 men and 1 woman had been discharged as recovered, and 5 men and 1 woman as improved; 3 men had been twice discharged improved, and 1 woman twice as recovered.

Sixty-seven of the admissions, 34 men and 33 women, were first attacks, 44 of which, 22 men and 22 women, were admitted first to Bloomingdale. Deducting from the whole number of admissions 15 cases that had been admitted in previous years, and 44 admissions in first attacks, leaves 32 cases that have been either treated at home or at some other Institution previous to admission here.

Thirty-nine patients were admitted 3 months or less after the first symptoms of mental disease were noticed by their friends; 13 between 3 and 6 months, 7 between 6 and 12 months, and 32 more than a year.

There was 1 man who was discharged and re-admitted once, and one woman who was discharged and re-admitted twice in the course of the year.

Of the cases of Subacute Mania, 2 men were alcohol habitues. These cases were distinctly insane.

The 7 male cases classed "not insane" were all voluntary. Two were alcohol cases and were both discharged recovered. The 5 remaining were morphine habitues, 2 of which were discharged recovered, 1 as improved, while 2 left before they had been under treatment long enough to derive any benefit.

DISCHARGES.

The total number of discharges during the year was 100, 54 men and 46 women. The number of recoveries was 26, 12 men and 14 women. They were 26 per cent. of all discharges, including deaths, 22 per cent. of the men who were discharged or died, and 30 per cent. of the women who were discharged or died.

Twenty patients, 8 men and 12 women, recovered from the first attack; 4 patients, 2 men and 2 women, from the second and 2 men from the third attack.

In the cases that recovered, the average duration of the disease from invasion to recovery was 12 months and 4 days; of the men, 9 months and 17 days, and of the women, 14 months and 24 days. The average duration of treatment was 5 months and 29 days; of the men, 5 months and 5 days, and of the women 6 months and 21 days. The longest period of treatment was 14 months and 9 days, in the case of 1 man, and 14 months and 5 days in the case

of 1 woman; the shortest was 27 days of 1 man, and 1 month and 25 days of 1 woman.

The disease was reported to have existed before admission an average of 6 months and 4 days; in the men, 4 months and 12 days, and in the women 8 months and 3 days.

Fifteen patients, 5 men and 10 women, recovered from mania, and 8, 4 men and 4 women, from melancholia.

One alcohol and 2 drug habitues, all volunteer cases, were discharged as recovered.

Of the 33 cases, 18 men and 15 women, who were discharged as improved, 3 men and 5 women seemed likely, at the time of their discharge, to recover if continued under treatment.

Of the 14 patients, 9 men and 5 women, who were discharged unimproved, 1 man seemed likely to recover if continued under treatment.

DEATHS.

The number of deaths during the year was 27, 15 men and 12 women. 8 men and 1 woman died of general paresis. Of the remaining 16 cases these were all chronic, except 2 cases, both women. Two cases of acute melancholia died, 1 woman of acute nephritis and 1 woman of acute tuberculosis. Thirteen cases of terminal and senile dementia died, 2 men of cerebral apoplexy and 3 men of senile exhaustion, 1 woman of influenza and cardiac valvular disease, 1 woman of senility and cardiac weakness, 1 woman of pneumonia, meningitis and cardiac valvular disease, 1 woman of pachymeningitis interna, 1 woman of cerebral apoplexy, and 3 women of senile exhaustion and decay.

Two cases of epileptic dementia died, 1 man of pneumonia and 1 man of exhaustion following prolonged convulsive seizures. One case of chronic mania, a woman, died of pulmonary tuberculosis.

Among the above 27 deaths, there were only 2 acute cases, the physical and mental disease in the remainder having existed for periods ranging from 1 to over 28 years.

Among these cases, 1 patient had been under treatment for 28 years and 7 months, 1 for 22 years and 2 months, 1 for 20 years and 3 months, 1 for 16 years and 5 months, and the remainder for periods less than 10 years.

The average time they spent in the Institution was 5 years, 2 months and 24 days.

In the 9 cases of general paresis, the longest period of their hospital treatment was 5 years, 11 months and 10 days, a man; the next longest, 3 years, 9 months and 4 days, also a man; 1 woman was under treatment for 2 years, 4 months and 23 days; the remaining cases were for shorter periods.

The average time they were under treatment was 2 years, 8 months and 21 days. The longest time from marked manifestation of disease prior to

admission was said to have been 3 years; the shortest was 4 weeks; the average was 1 year, 4 months and 21 days.

The longest period from first manifestation to death was 9 years, 11 months and 10 days, the shortest was 4 weeks.

The average duration of the disease from the first manifestation to death was said to have been 3 years and 21 days.

The total number of deaths was at the rate of 6.50 per cent. of all the cases treated; in the men 7.24 per cent. and in the women 5.35 per cent.

NOTE ON GENERAL PARESIS.

A comparison of our admissions of cases of Paresis during the past 10 years shows that there is a relative decrease of such admissions by nearly 6 per cent. This may be partly due to our efforts to eliminate incurable cases as far as practicable.

We have admitted altogether in the last 10 years 1,230 patients, viz.: 646 men and 584 women. Of these 1,230 patients, 205 have been Paretics, viz.: 180 men and 25 women. The proportion of women cases to men cases has decreased. The average age of the men cases admitted was 42.8 years and of the women cases 39.36 years. The oldest male Paretic was 71, the youngest 24; the oldest female Paretic was 51, the youngest 24; all the ages being at the inception of the disease.

The frequency of General Paresis in the professions and some occupations in the 205 cases admitted during the past 10 years shows that of the 180 male cases of General Paresis admitted during that time, 30 were salesmen and clerks; 27 merchants; 9 manufacturers; 8 lawyers; 7 brokers; 7 saloon keepers; 5 physicians; 5 real estate agents; 4 actors; 4 theatrical managers; 4 book-keepers; 3 policemen; 3 traveling salesmen; 3 jewelers; 3 factory operatives; 3 no occupation; 2 real estate dealers; 2 civil engineers; 2 musicians; 2 tailors; 2 collectors; 2 secretaries, 2 insurance agents; 2 firemen; 2 gamblers, and 1 each of 37 various other occupations.

Of the 25 female cases of General Paresis admitted during the past 10 years, 16 were housewives; 4 widows keeping house; 3 had no occupation; 1 was an actress, and 1 a servant.

GENERAL REMARKS.

There were 7 fewer admissions this year than last.

The average number of patients in the Institution was 328, 11 less than the average of the preceding year.

The number of weeks board and treatment furnished for patient was 17,257½, a decrease since last year of 670½. The average expenditure per patient was \$11.34 per week, not including the reimbursement to the Institution by the friends of patients of the wages paid for private attendants.

The total expenditures for the year were not materially increased over those of former years, notwithstanding the well recognized increased cost of almost all supplies necessary to the support of the Hospital.

Sixty-three women were beneficiaries of the John C. Green Memorial Fund during the year 1901. The amount of income received from that fund and expended for these women in 1901 was \$7,434.16, an increase from the income of that fund over the year 1900 of \$55.15. The total charitable expenditures during 1901 in caring for and treating patients (preferably acute and presumably hopeful cases) was \$48,519.95. Two hundred and forty-four individuals shared in this charitable assistance, some being entirely and others partially supported. The sum of \$41,085.79 was expended for this purpose from the earnings of Bloomingdale during the year 1901; 10.87 per cent. of those treated contributed nothing whatever to their support; 55.7 per cent. of the patients paid sums varying from nothing to the bare cost of their care. Only 44.3 per cent. paid a rate which secured a profit to the Institution, which receives no public, State or City aid, is self-supporting, and devotes all excess of its receipts over its expenditures to the improvement of the Institution and the support of its beneficiaries. The total support and the partial assistance rendered to patients unable to pay for their entire cost to the Hospital was equivalent to maintaining 94 free beds.

There have been no changes in the staff during the year, excepting that made by the ending of the term of Dr. William H. Allee, on March 31, 1901, who was succeeded on April 1, 1901, by Dr. Clyde E. McDannald; and all the officers have discharged their duties faithfully and intelligently, with an evidence of real interest in their work.

It is again a pleasure to record the excellent service rendered by all those employed by the Institution.

TRAINING SCHOOL.

During the past year 3 men and 6 women received certificates of having pursued the studies laid down in the Training School for Attendants, having attained a reasonable degree of efficiency. This was the fifth regular examination, and the graduates of the school of instruction for attendants now number a total of 48.

THE CONVALESCENT HOME FOR PATIENTS FROM THE NEW YORK HOSPITAL.

The Convalescent Home for patients from the New York Hospital accommodated during the year 44 men and 48 women patients, and 2,374 days board were furnished them, which is 5 more men and 29 more women than enjoyed the benefits of the home the preceding year. A number of deserving patients from other hospitals in New York City were allowed to share this privilege, their admission being regulated by the Superintendent of the New York Hos-

pital. The benefits of this home in completing the convalescence and cure of patients recovering from acute attacks of diseases, or surgical operations, and the amelioration of the sufferings in cases of chronic diseases were very marked and fully justified the care and expense of the establishment.

The men who have been tentatively quartered in the old farm house were not as comfortable nor as conveniently cared for as the women in the new Campbell Convalescent Home, but better quarters for them are insured for the ensuing year in the residence which was acquired with the Onderdonk property recently purchased, and which will be ready for their arrival in the early Spring. It has been found that such convalescent patients do not desire to come to such a home in the Winter time, so that their attendance is from early Spring until October.

IMPROVEMENTS.

Among the material improvements made by the Hospital during the year are a building 60x80, containing accommodations for patients in the first story, and a recreation room in the second, and a separate cottage for patients of independent means. The first mentioned building will accommodate about 10 patients, who are subject to occasional periods of disturbance, but whose lives for the most part are placid, and this building is so designed that such patients may have a maximum of comfort, safety and attention. The second story is a large clear room, with a skylight covering more than the third part of the ceiling, and large windows facing east and south. Even in the exposed position which it occupies, on bright days in winter the heat of the sun is almost sufficient to warm it; a little additional artificial heat is provided. It forms an excellent recreation room for the women patients in bad weather, where they are able to indulge in bicycle riding, physical culture, dancing, or any other forms of reasonable amusement, which may suggest themselves from time to time. We have had the benefit of this since the cold weather began, and it seems to have contributed already a very sensible amount of pleasure, as well as healthy occupations to a large number of our women patients.

The separate building, which has been appropriated by the family of one of our patients, presents the usual aspect of a summer or seaside cottage, without any hospital suggestions, and is regarded as a decided success.

During the last summer an adjoining farm of 50 acres was bought, principally to protect our eastern boundary from possible objectional features, should it not be secured by the Hospital. This purchase not only gives the Hospital this very important protection, but it also provides a valuable addition to its dairy and gardening facilities. Upon it is a residence very well adapted for such convalescent patients recovering from general diseases, as may be sent to White Plains from the New York Hospital.

SAMUEL B. LYON,
Medical Superintendent.

THE SOCIETY OF THE NEW YORK HOSPITAL,
BLOOMINGDALE, WHITE PLAINS.

GENERAL TABLE OF STATISTICS,

Compiled from the Annual Reports of the Institution.

YEAR.	Admitted.	Whole number during the year.	Whole number discharged and died.	Recovered.	Improved.	Not Improved.	Died.	Voluntary. Not Insane.	Remaining at end of year.	Average number.
